

P120E A

Modular electric deck oven

2 decks composition

serieP electric consists of one or more independent baking chambers and an optional leavening or stand. The baking surface is made of refractory bricks allowing the perfect heat distribution over the whole surface and making this oven particularly suitable for direct pizza baking on floor or on trays. In alternative to refractory brick, embossed stainless steel surface is available, especially indicated for bakery combined with steamer (optional). The baking chamber comes in two heights: 18 cm or 30 cm. Temperature management is electronic, power control of ceiling and floor is independent. The oven door is hinged at the bottom, with a tempered glass window to check the product during baking. The stand consists of a painted metal structure, while the leavening proofer has a stainless steel structure, equipped with a heating thermostat. The leavening proofer can reach the maximum temperature of 149°F, whereas the maximum temperature of the baking chamber is 842°F.

OPERATION

- · Heated by armoured heating elements
- · Electronic temperature management with independent adjustment of ceiling and floor
- · Maximum temperature reached 842°F
- · Continuous temperatures monitoring in baking chamber by thermocouple
- · Vapour ducting using manual butterfly valve

CONSTRUCTION

- · Structure made in folded stainless steel
- Side panels in painted sheet metal
- · Hood in stainless steel
- · Steam duct in stainless steel plate
- · Stainless steel door, tempered glass
- · Aluminated steel top and side structure
- · Dual halogen lighting
- · Rock wool heat insulation

ACCESSORIES

- · Leavening proofer on wheels height 31 1/2"
- Stand with wheels height 23 1/2", 31 1/2", 37 1/2"
- Spacer element height 11 13/16"
- · Refractory brick or buckle plate surface
- · Additional tray holder guides for compartment and stand
- · Self-condensing hood
- Frontless hood

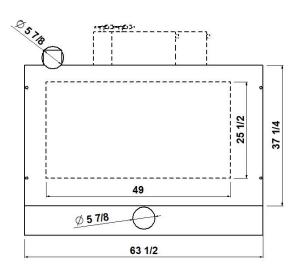

INTERNAL BAKING DIMENSIONS

Internal height	7"/12"
Internal depth	25 1/2"
Internal width	49"
Baking surface	8 6ft ²

STANDARD EQUIPMENT

- 20 customizable programs
- Timer
- Economiser
- · Independent maximum temperature safety device
