- Comfortable cleaning and maintenance concept

The E80 Supreme is known for its high-capacity, precise dosing and fast grinding abilities – without compromising on consistency or taste. The powerful motor has an active temperature control ensuring a high daily output, while providing uniformity in all taste parameters - especially important in heavy-duty environments.

## High capacity and great taste.

When it comes to “quantity vs. quality”, demanding shop owners had a hard decision to make. Thanks to the efficient motor and supersized burrs of the E80 Supreme, you can have both!

## High-speed grinding.

Mahlkönig developed burrs with innovative geometry that features top-notch grinding profiles at a never seen before pace. The 80 mm special steel burrs are engineered for high-speed grinding and guarantee optimal particle sizes, allowing the espresso to release its full taste and aroma.

## The innovative Disc Distance Detection (DDD) Function

lets you set the degree of fineness with the utmost precision and perfection. The E80 Supreme is one of first espresso grinders to feature grind adjustments based on the actual distance between the burrs.

## Optimal operation.

Equipped with a premium 88.3 mm color display, providing the highest visual comfort when setting your grinder or when checking statistics and service intervals. Intuitive use on the next level.

## Rapid navigation throughout the menu.

The innovative software is based on state-of-the-art technology and features modern user-friendly icons. You can set your preferred recipe within seconds and be ready to grind.
