### The Real Made in Italy

Desmon S.p.A was founded in 1994 by the family De Santis as a food equipment trading company.

In 1998 the company has taken over a local manufacturing company and started production of refrigeration equipment. After a few successful years the company became one of the leaders in the European market of professional refrigeration.

100% of the production of professional refrigeration equipment is concentrated in the main factories in Italy.

### Who prefers Desmon...

... is conscious to do the best choice in the professional refrigeration field. Desmon's primary objective is to maintain high quality standards and to achieve full customer satisfaction.

Those who choose Desmon know that they obtain a huge selection of products produced by the superior ability of Desmon workers, from the body to the smallest detail.

Those who choose Desmon know that they have a product built to last, and day after day will appreciate the material quality, the reliability in technology and its enhanced design.

### Il Vero Made in Italy

Desmon S.p.A è stata fondata dalla famiglia De Santis nel 1994, come azienda per la commercializzazione di attrezzature per il catering.

Nel 1998, Desmon rileva un marchio storico della refrigerazione professionale avviando la produzione di frigoriferi professionali a marchio proprio. In pochi anni Desmon diventa un punto di riferimento europeo nella produzione di attrezzature refrigerate per il catering.

**Il 100%** delle attrezzature refrigerate prodotte da Desmon vengono realizzate nei due opifici di circa 25.000mq interamente coperti siti in Nusco (AV).

### Chi sceglie Desmon...

... è consapevole di fare la scelta migliore nel campo della refrigerazione professionale.

Obiettivo primario della Desmon è quello di mantenere alti gli standard qualitativi e raggiungere la piena soddisfazione dei propri clienti.

Chi sceglie Desmon sa di poter attingere ad una vastissima gamma di prodotti realizzati interamente dalla sapiente mano degli uomini Desmon, dalla scocca al più piccolo particolare..

Chi ha scelto Desmon sa di avere un prodotto creato per durare nel tempo, apprezzandone giorno dopo giorno la qualità dei materiali, l'affidabilissima tecnologia ed il Design sobrio e sempre attuale.

## Superior Materials

Every product is produced with the greatest care for the details. Desmon's primary objective is to produce the highest quality products, for this reason it chooses only high quality materials, to ensure that the Desmon products last a long time regardless of the application.

It's for this reason that Desmon uses only stainless steel of superior quality. All internal and external structures are stainless steel, such as the doors, the adjustable pedestals and the table and cabinet handles.

All Desmon models present tropicalized refrigerating units. Other characteristics of our products are the strength and the high reliability that can guarantee the right functionality even if exposed to excessive usage in an "unfriendly environment".

## Materiali Superiori

Ogni prodotto è realizzato con la massima cura per i particolari; Desmon ha come obiettivo primario la qualità dei propri prodotti, per questo sceglie unicamente materiali di standard elevatissimo, in modo da far durare e mantenere inalterati nel tempo i propri prodotti.

È per questo che Desmon usa solo acciai di qualità superiore. Le strutture interne ed esterne sono in acciaio inox, come le porte, i regolabili e le impugnature sia dei tavoli che degli armadi.

Tutti i modelli Desmon sono dotati di serie di unità refrigeranti tropicalizzate. Ulteriori caratteristiche dei nostri prodotti sono la robustezza e l'alta affidabilità capaci di garantire la buona funzionalità dei prodotti anche se sottoposti ad un uso esasperato.

## Certified Quality

We believe that every process designed to control production and make information objective and available improves the relationship with our customers, both the internal and external ones. It's this transparency that controls our job.

## Qualità Certificata

Crediamo che ogni processo tendente ad rendere controllata, oggettiva e fruibile l'informazione, migliori la relationship con i nostri clienti, interni ed esterni; è la trasparenza a governare il nostro lavoro.

## Energy Saving & Low Emission

Respect for the environment is in DNA of Desmon and confirmed by decades of continuous improvement and implementation of environmentally efficient production processes. Desmon is always careful on every single step of a product life cycle, from design to disposal, having in mind an intention to reduce an impact on environment and create benefits for customers from decreasing energy costs. Desmon has obtained ISO-14001 certificate for a commitment to respect an environment on every stage of business activity.

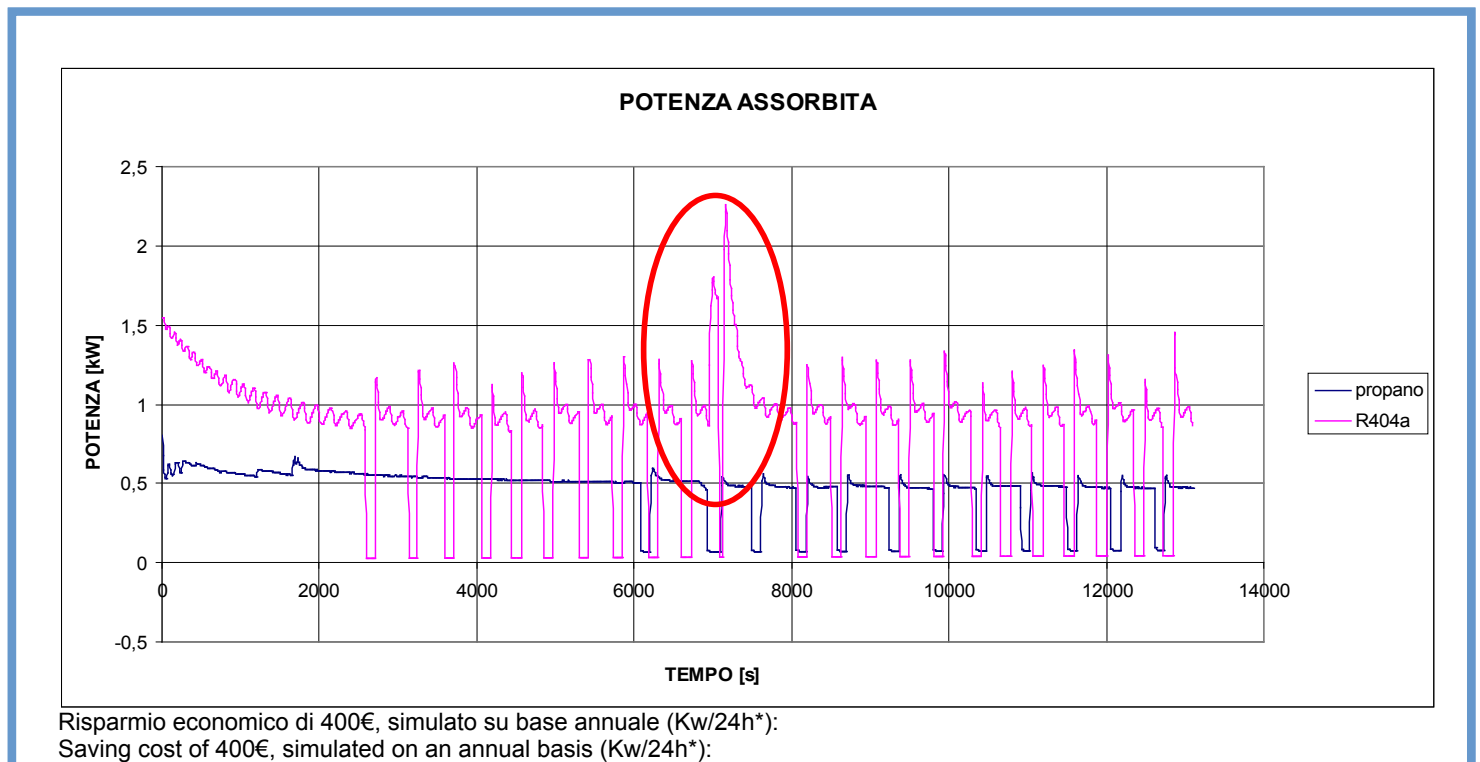

*Il rispetto per l'ambiente è da sempre nel DNA del Gruppo Desmon. Questa vocazione trova conferma in decenni di continuo impegno nella ricerca di processi produttivi efficienti nel rispetto dell'ambiente. La Desmon è da sempre attenta a ciascuna fase del ciclo di vita dei propri prodotti, dalla progettazione allo smaltimento, con l'obiettivo di ridurre al minimo l'impatto ambientale e di incrementare i benefici per il Cliente (minori costi energetici). A prova dell'impegno costante, Desmon ha ottenuto la certificazione ISO 14001. La salvaguardia dell'ambiente è talmente sentita in Desmon che coinvolge ogni singola attività aziendale e tutte le varie fasi del ciclo vitale del prodotto.*

Desmon is one of manufacturer of commercial refrigeration in the world using cyclopentane. Desmon products have a Cyclopentane thermoinsulation which does not damage an ozone layer and does not make a greenhouse effect. Cyclopentane replaces polyurethane foams based on HCFCs and CFCs which destroy an ozone layer and generate the greenhouse effect.

*Desmon è stata tra le prime aziende al mondo ad utilizzare la schiuma al ciclopentano per l'isolamento termico dei propri prodotti, un gas che non danneggia l'ozono e non produce effetto serra. Il ciclopentano sostituisce le schiume poliuretaniche basate su HCFC e CFC, estremamente nocive per l'ambiente.*

Desmon is constantly searching for new solutions to create products with a minimum negative impact on environment. Among those solutions Desmon develops a refrigeration units which use a natural gas R290 (propane) see IRIDIUM Line.

*Desmon è costantemente alla ricerca di nuove soluzioni per creare prodotti che abbiano il minimo impatto ambientale. Tra queste soluzioni Desmon ha sviluppato unità di refrigerazione che utilizzano un gas naturale R290 vedi Linea IRIDIUM.*

\*costo Kw di 15 cent - price of Kw 15 cent

### Energy Saving 41%

Energy consumption absorbed on R404A cooling system: 18,4kWh/24h;

Energy consumption absorbed on R290 cooling system: 10,80kWh/24h.

### Risparmio energetico del 41%

Energia elettrica assorbita dall'impianto tradizionale: 18,4kWh/24h;

Energia elettrica assorbita dall'impianto a propano: 10,80kWh/24h.

# Desmon

## CypenVac Technology

Revolutionary technology for thermal insulation, which allows an energy saving of

**-38% in storage**

**-43% in Freezing**

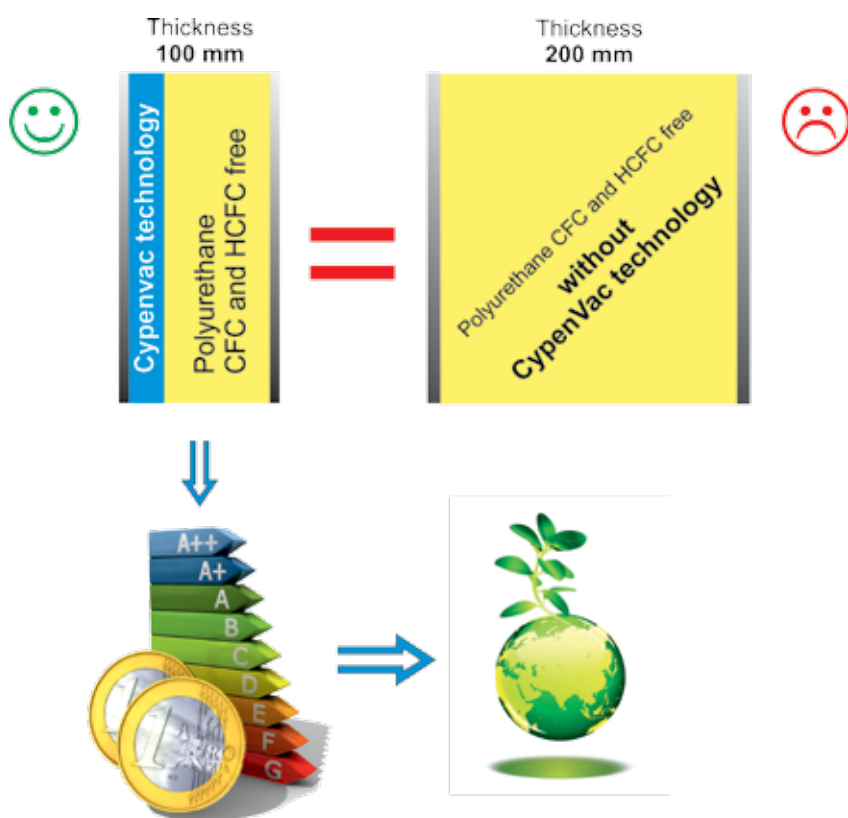

Increases the effectiveness of the thermal insulation of 100%.

Aumenta notevolmente l'efficacia dell'isolamento termico, portando un risparmio energetico del 38% in conservazione e del 43% in congelamento.

**Increase price list of 25%**  
**Incrementare il prezzo di listino del 25%**

CypenVac is an innovative insulation system alternative to polyurethane foam, consisting of panels containing insulating material in powder under vacuum. In this way you get a 'thermal insulation of refrigerators, freezers and blast chillers. Advantages: The insulation system is obtained by Cypenvac allows to obtain reductions in energy consumption in the order of 40% compared to traditional polyurethane insulation system under equal conditions of isolation. Besides the significant energy saving technology Cypenvac allows to reduce the use of polyurethane for thermal insulation, and this positively affects reducing emissions of cyclopentane in the atmosphere during the foaming. In conclusion Cypenvac technology allows to safeguard the environment both by reducing CO2 emissions during operation of the final product, both HCFC emissions during production of the same, and at the same time allows the product to have an energy efficiency greater.

## Thermal Insulation

### Innovativo sistema di isolamento termico che assicura un risparmio energetico fino al 43%

CypenVac è un innovativo sistema di isolamento alternativo alla schiuma poliuretanic, costituito da pannelli contenenti materiale isolante in polvere sotto vuoto. In questo modo si ottiene un'isolamento termico ad alto rendimento per Frigoriferi, congelatori ed abbattitori rapidi di temperatura. Vantaggi: Il sistema di isolamento ottenuto mediante Cypenvac permette di ottenere riduzioni dei consumi energetici nell'ordine del 40% rispetto al sistema di isolamento tradizionale a poliuretano a parità di condizioni di isolamento. Oltre al notevole risparmio energetico la tecnologia Cypenvac consente di ridurre l'utilizzo di poliuretano per l'isolamento termico e ciò incide positivamente riducendo le emissioni di ciclopentano in atmosfera in fase di schiumatura. In conclusione la tecnologia Cypenvac permette di salvaguardare l'ambiente sia riducendo le emissioni di CO2 in fase di funzionamento del prodotto finale, sia le emissioni di HCFC in fase di produzione dello stesso, ed allo stesso tempo consente al prodotto di avere un'efficienza energetica maggiore.

## Qualità & Affidabilità

Spessore isolamento fino a 75mm senza CFC E HCFC;  
Da 50 mm su SlimLine

Insulation thickness until to 75 mm CFC & HCFC free. 50 mm of thickness for SlimLine

Cremagliere amovibili senza l'uso di utensili

Completely removable racking for easy cleaning

Griglie Plastificate posizionabili ogni 60mm

Trayslide adjustable at 60mm intervals

Esterno in acciaio inox AISI 304/441

Exterior in Stainless steel AISI 304/441

Unità refrigerante a Monoblocco per sfruttare tutta la capacità di stoccaggio. (escluso SlimLine)

Compact Refrigeration System featuring designed to maximise available capacity. (not available on SlimLine)

Guarnizione amovibili per una facile pulizia

Wide magnetic gasket gives effective seal and is removable for easy cleaning

Cruscotto incernierato per consentire facile accesso alle parti elettriche ed all'unità motocondensante.

Hinged control panel for service access

Interno in acciaio Inox AISI 304/441 Angoli interni arrotondati

Interior Stainless Steel AISI 304/441. Rounded corner internal for easy cleaning

H.A.C.C.P. di serie

H.A.C.C.P. as standard

Spessore isolamento da 75mm su modelli IG. 60 mm sul resto della gamma.

Insulation thickness to 75 mm on IG model. 60 mm of thickness for the rest of the range.

Cremaie amovibili senza l'uso di utensili

Completely removable racking for easy cleaning

Cruscotto incernierato per consentire facile accesso alle parti elettriche ed all'unità motocondensante.

Hinged control panel for service access

Esterno in acciaio inox Aisi 304. A richiesta schienale in acciaio per installazione ad isola.

304 Grade in Stainless steel exterior. Complete stainless steel back option for island siting.

Serratura di serie

Door lock as standard

Luce interna di serie

Interior light as standard

Unità refrigerante a mono-blocco per sfruttare tutta la capacità di stoccaggio.

Compact Refrigeration System featuring designed to maximise available capacity.

Griglie plastificate posizionabili ogni 60 mm

Trayside adjustable at 60mm intervals

Gurnizioni removibili per una facile pulizia

Wide magnetic gasket gives effective seal and is removable for easy cleaning

Interno in acciaio Aisi 304. Angoli interni arrotondati.

Interior Stainless Steel AISI 304. Rounded corner internal for easy cleaning

Risparmia sul costo di trasporto con i prodotti Modulari Desmon. Questi prodotti vengono spediti smontati per essere assemblati nel luogo di destinazione. Così i costi di trasporto e di stoccaggio possono essere ridotti sino al 50%. Questi prodotti possono essere installati in aree dove sarebbe molto difficile accedere con prodotti già montati: Possono essere trasportati con facilità pezzo per pezzo ed assemblati nel luogo dove saranno utilizzati

Save on shipping costs with Desmon's Modular Refrigeration. These units are shipped in a flat pack and are not assembled until they arrive at their final destination. This can reduce shipping and storage costs by up to 50%

Install refrigeration units in areas that previously would have been impossible to access. Move your modular units in one piece at a time and build them up where they will be finally used.

# KNOCKING DOWN

Risparmia sul costo di trasporto con i prodotti Modulari Desmon. Questi prodotti vengono spediti smontati per essere assemblati nel luogo di destinazione. Così i costi di trasporto e di stoccaggio possono essere ridotti sino al 50%. Questi prodotti possono essere installati in aree dove sarebbe molto difficile accedere con prodotti già montati: Possono essere trasportati con facilità pezzo per pezzo ed assemblati nel luogo dove saranno utilizzati

Save on shipping costs with Desmon's Modular Refrigeration. These units are shipped in a flat pack and are not assembled until they arrive at their final destination. This can reduce shipping and storage costs by up to 50%  
Install refrigeration units in areas that previously would have been impossible to access. Move your modular units in one piece at a time and build them up where they will be finally used.

### CARATTERISTICHE

- Facili da trasportare e da assemblare
- Interno ed esterno realizzato in Acciaio AISI 304
- Angoli interni arrotondati per una facile pulizia ed una perfetta igiene
- 60 mm di spessore sull'intera scocca
- H.A.C.C.P. di serie su tutti i modelli

### STANDARD FEATURES AND BENEFITS:

- Comes flat packed and easy to assemble
- Both external and internal surfaces are constructed from Stainless Steel AISI 304
- Internal covered Stainless Steel surface allows for easy cleaning and maintenance
- 60mm high density polyurethane foam insulation (CFC & HCFC Free)
- Constructed with kitchen efficiency in mind
- All High Line Refrigeration comes standard with H.A.C.C.P. system

## Gelateria Glacier

H.A.C.C.P. di serie

H.A.C.C.P. as standard

Spessore da 60 mm su tutta la scocca.

Insulation thickness 60 mm CFC & HCFC free.

Cremagliere amovibili senza l'uso di utensili

Completely removable racking for easy cleaning

Cruscotto incernierato per consentire facile accesso alle parti elettriche ed all'unità motocondensante.

Hinged control panel for service access

Esterno in acciaio inox Aisi 304. A richiesta schienale in acciaio per installazione ad isola.

304 Grade in Stainless steel exterior. Complete stainless steel back option for island siting.

Serratura di serie

Door lock as standard

Luce interna di serie

Interior light as standard

Unità refrigerante a monoblocco per sfruttare tutta la capacità di stoccaggio.

Compact Refrigeration System featuring designed to maximise available capacity.

Griglie plastificate posizionabili ogni 60 mm

Trayslide adjustable at 60mm intervals

Garnizioni removibili per una facile pulizia

Wide magnetic gasket gives effective seal and is removable for easy cleaning

Interno in acciaio Aisi 304. Angoli interni arrotondati.

Interior Stainless Steel AISI 304. Rounded corner internal for easy cleaning

Controllo Elettronico  
H.A.C.C.P. di serie su GB7  
Statico a serpentino con ventilatore a ricircolo.  
Sbrinamento manuale  
Evaporazione automatica  
Gas : R404a

Luce interna di serie su GB7  
Isolamento 60 mm privo di CFC/HCFC  
Esterno ed Interno in acciaio inox Aisi 441 o 304  
Angoli interni arrotondati  
Serratura con chiavi di serie  
Piedini regolabili in Inox su GB7  
Griglie plastificate dim. 530x650mm

Optional  
Griglie inox, Ruote piroettanti di cui due fisse con freno, controllore H.A.C.C.P.

Electronic control  
H.A.C.C.P. as standard on GB7

## Accessori - Accessoires - Accessoires - Zubehör Accesorios - Seçenekleri - Доп. опция

 Questi accessori possono essere ordinati esclusivamente insieme al prodotto a cui si riferiscono, e non possono essere ordinati separatamente. I prezzi degli accessori, indicati in questo listino, sono solo incrementi e non normali prezzi di vendita. Per ordini separati è necessario consultare il listino ricambi non incluso in questo catalogo.

 Those options are to be ordered only at the moment of ordering a corresponding model and it is impossible to order them separately. The price of the accessories represents only the price increasing and it isn't the accessories price list. To order other accessories, please, check a separate "Spare parts list price".

 Ces accessoires ne peuvent être commandés à ce prix qu'avec le meuble, et ne peuvent pas l'être séparément. Pour commande séparée uniquement d'accessoires, il est nécessaire de consulter le tarif pièces détachées non inclu dans ce catalogue.

 Dieses Zubehör kann nur ausschließlich in Phase der Bestellung des Produktes bestellt werden, auf die sie sich beziehen, und können nicht separat bestellt werden. Für die Bestellung von Ersatzteilen ist der Ersatzteilkatalog zu konsultieren der nicht in diesem Listenpreis beigefügt ist.

 Estos accesorios se pueden ordenar exclusivamente en fase de pedido del producto al que se refieren, y no se pueden pedir separadamente. Los precios de los accesorios, indicados en este listín, son sólo incrementos y no normales precios de venta. Por pedidos separados es necesario consultar el listín accesorios no incluido en este listín.

 Buu katalogda gösterilen aksesuar fiyatları sadece katalog fiyatlarıdır, normal satış fiyatları değildir. Ayrı siparişler için, bu kataloga dahil olmayan Yedek Parça Fiyat Listesi kullanılmalıdır.

 Эти аксессуары должны быть заказаны вместе с основными моделями и не могут поставляться отдельно. В случае заказа этих опций к цене основной модели надо будет добавить цену опции. Для заказа остальных аксессуаров и запасных частей, пожалуйста, смотрите отдельный прайс-лист «аксессуары».

### Accessori - Accessories - Accessoires - Zubehör - Accesorios - Seçenekleri - Доп. опция

Questi accessori possono essere ordinati esclusivamente insieme al prodotto a cui si riferiscono, e non possono essere ordinati separatamente. I prezzi degli accessori, indicati in questo listino, sono solo incrementi e non normali prezzi di vendita. Per ordini separati è necessario consultare il listino ricambi non incluso in questo catalogo.

Those options are to be ordered only at the moment of ordering a corresponding model and it is impossible to order them separately. The price of the accessories represents only the price increasing and it isn't the accessories price list. To order other accessories, please, check a separate "Spare parts list price".

Ces accessoires ne peuvent être commandés à ce prix qu'avec le meuble, et ne peuvent pas l'être séparément. Pour commande séparée uniquement d'accessoires, il est nécessaire de consulter le tarif pièces détachées non inclu dans ce catalogue.

Dieses Zubehör kann nur ausschließlich in Phase der Bestellung des Produktes bestellt werden, auf die sie sich beziehen, und können nicht separat bestellt werden. Für die Bestellung von Ersatzteilen ist der Ersatzteilkatalog zu konsultieren der nicht in diesem Listenpreis beigefügt ist.

Estos accesorios se pueden ordenar exclusivamente en fase de pedido del producto al que se refieren, y no se pueden pedir separadamente. Los precios de los accesorios, indicados en este listín, son sólo incrementos y no normales precios de venta. Por pedidos separados es necesario consultar el listín accesorios no incluido en este listín.

Эти аксессуары должны быть заказаны вместе с основными моделями и не могут поставляться отдельно. В случае заказа этих опций к цене основной модели надо будет добавить цену опции. Для заказа остальных аксессуаров и запасных частей, пожалуйста, смотрите отдельный прайс-лист «аксессуары».

## CARATTERISTICHE - FEATURES - CARACTÉRISTIQUES

### BAR SYSTEM

Offre una serie enorme di elementi funzionali e versatili per ottimizzare il lavoro grazie ai lavelli, gocciolatoi, ed agli spazi sottostanti con cassetti e sportelli.

#### STRUTTURA

Dimensioni in mm includono gli zoccoli da 30mm. Sportelli e cassetti in acciaio inox. Interno acciaio inox

Pavimento rinforzato per 50 L KEG-EURO o barili - DIN. Canale di scarico con sifone

#### PIANO (Top)

Piano in acciaio inox con vasca e gocciolatoio (griglia) stampato con bordo perimetrale. Con troppo pieno sui lavelli e sifonatura.

[Rubinetteria e spillatore non compreso.](#)

Dimensioni livello 300x500

### BAR SYSTEM

offers a vast range of functional, versatile elements for optimising use and organization of work space on the top, thanks to bowls and drainers as well as the spaces beneath - with drawers, pan drawers and doors.

#### BODY

Measurements in mm, including two 30 mm high plinths. Doors, drawers in stainless steel. Internal covering: stainless steel. Parts with door and reinforced bottom. For 50 L KEG-EURO or DIN barrels. Water drain pipe with trap.

#### TOP

In stainless steel. Drawn drainer with grille. 40 mm outer retaining edge. Complete with drain/overflow pipe valve, drain connection for drainer and bowl plus trap and water taps.

[Without draft column and mixer.](#)

Sink dimensions: 300x500

### BAR SYSTEM

propose une importante série d'éléments fonctionnels et polyvalents afin d'optimiser le travail grâce aux évier, égouttoirs, et aux espaces de dessous avec tiroirs et portillons.

#### STRUCTURE

Dimensions en mm incluant les socles de 30 mm. Portillons et tiroirs en acier inox. Intérieur en acier inox.

Sol renforcé pour 50 L KEG-EURO ou barils - DIN. Canal d'évacuation avec syphon.

#### DESSUS (Top)

Dessus en acier inox avec cuve et égouttoir (grille) avec bords périmétraux moulés. Avec trop plein sur les évier et syphons.

[Robinetterie et tireuse non compris.](#) Di-

mensions évier 300x500

## BEER BOX

BB06 + BBUCE

### CARATTERISTICHE - FEATURES - CARACTÉRISTIQUES

 Mobile costruito a pannelli e montati mediante l'utilizzo di ganci ad eccentrico  
Pavimento rinforzato per la tenuta dei fusti di birra  
Pavimento interno in acciaio inox, il restante in acciaio zincato. Porta con guarnizione magnetica.  
Isolamento poliuretano espanso alta densità spessore 50mm.  
Monoblocco a sistema ventilato.  
Gas R404a  
Temperatura +2° +8°C

 • Unit consisting of complete panels with hidden fast-coupling system.  
• Reinforced bottom to support beer barrels.  
• Bottom in stainless steel, remaining panels in galvanised plate.  
• Door rebates fitted with magnetic gasket.  
• Heat insulation in high density polyurethane, thickness: 50 mm.  
Motor block:  
• Refrigerant gas: R404A  
• Electro-mechanical controls: on/off switch, temperature regulation thermostat.

 • Meuble constitué de panneaux pourvus d'un système d'accrochage rapide escamotable  
• Fond renforcé pour appuyer les barils de bière.  
• Fond en acier inox, ensemble des panneaux restant construit en tôle galvanisée  
• Portes avec joints magnétiques  
• Isolation en polyuréthane à haute densité. Epaisseur: 50 mm  
Monobloc moteur:  
• Installation réfrigérante avec système ventilé  
• Gaz réfrigérant: R 404A  
• Commandes électromécaniques: interrupteur général, thermostat de réglage de la température.

 Möbel in Paneelbauweise mit Exenterhakenverschlüssen  
Verstärkter Edelstahlboden für die Lagerung von Fässern  
FusSBoden innen in Inox – Struktur aus verzinktem Stahlblech  
Türverschluss mit magnetischer Dichtung  
Polyurethanisolation 50mm  
Wandstärke  
Monoblockaggregat  
Kühlmittel R404a  
– Arbeitstemperaturen +2°/+8°C

 Mueble construido con paneles montados a través del empleo de ganchos  
Suelo reforzado por el apoyo de barriles de cerveza  
Suelo interno en acero inox, el restante en acero cincado.  
Puerta con guarnición magnética. Aislamiento poliuretano extendido alta densidad de espesor 50mm. Monobloque con sistema ventilado  
Gas R404a  
Temperatura +2 +8 C

 • Ünite tamamen birbirine hızlı bağlanabilen panellerden oluşmaktadır.  
• Güçlendirilmiş alt bira fiçilerini taşıyacak şekilde yapılmıştır.  
• Alt parça paslanmaz, kalan paneller galvanizden yapılmaktadır.  
• Kapılarda manyetik conta bulunmaktadır.  
• Isı izolasyonu yüksek basınçlı poliüretan ile yapılmıştır. Kalınlık: 50 mm  
Motor Bloğu vardır.  
• Soğutma Gazı: R 404 A  
• Elektro-Mekanik Kontrol: Sıcaklık Regülasyonu Termostat ile Sağlanmaktadır.

 - В наборе идут готовые панели со скрытыми соединениями для быстрого монтажа  
- Усиленное дно для лучшей поддержки пивных бочек  
- Дно изготовлено из нержавеющей, а остальные панели – из оцинкованной стали  
- Магнитные прокладки дверей  
- Теплоизолирующий слой толщиной 50мм изготовленный из высокоплотного полиуретана  
Холодильный блок:  
- Фреон R404A  
- Электромеханический контроль: кнопка включения/выключения, регулировка температуры термостатом
