

# Ozerna Colour Green

### Green, ecological colour detergent

#### **PROPERTIES:**

- · distinct fat and protein dissolving power
- Ecolabel

DE/039/017

- excellent cleaning at low dosage
- $\bullet$  high efficacy even at low temperatures of 40  $^{\circ}\text{C}$
- excellent dermatological properties of washed cloth (test according to EN ISO 10993-5)
- contains no optical brightener, bleaching or phosphates
- · perfume-free
- · ideal suitable also with poor water qualities
- · certified EU Ecolabel

#### **APPLICATION:**

Ozerna Colour Green is a high efficient, liquid coloured detergent for the professional cleaning of washable outer wear, sportswear as well as cloth from the hospitality sector. It has distinct fat and protein properties.

Ozerna Colour Green removes soiling even in short washing cycles of 10 minutes and it is easily rinsed out afterwards. Due to the special mixture of tensides Ozerna Colour Green works even at very poor water qualities.

TECHNICAL DATA:

Density [20°C] pH-value [1%ig] 1,09 g/ cm<sup>3</sup> 8,0 - 9,0

For industrial use only. This information sheet is for guidance only. The data set out here are based on the current status of our knowledge and experience. They do not in any way absolve users of the need to carry out their own checks and tests for suitability of the products for the intended processes and purposes. The data in this information sheet do not represent assurance of properties and stability of the products we are to supply. Subject to technical modifications within reason. ## **DOSING:** (ML/KG LAUNDRY)

Range of water hardness	Pre-wash	Main wash	Only main wash
0 – 7°dH soft	3	4	6
8 – 13°dH medium	4	5	7
> 14°dH hard	6	7	8

<sup>\*</sup>The degree of hardness or the water hardness is known by your water supplier

#### HINWEISE:

#### Storage:

Store dry and frost-free. After partial taking out close packing unit tightly again. The product can be stored for at least 24 months in its original sealed packing.

The dosage should be adjusted to water hardness and degree of soiling.

The use of natural ingredients can cause a visible darker clouding in the lower part of the can. This clouding has no influence to the efficiency of the product.
