All-in-One Daycare & Preschool Solutions

Daycares, preschools, and Head Start centers face many challenges due to the shortage of staff, resources, and curriculum-based teaching materials.

Animal Island Learning Adventure (AILA) is here to provide simple, effective solutions for your daycare. With our full line of preschool products, developed by educators and innovators, turn your daycare into a learning adventure that supports kindergarten readiness.

The **AILA Sit & Play** is an all-in-one solution for daycare centers and programs seeking to provide toddlers with a fun and engaging way to learn preschool fundamentals. The AILA Sit & Play is preloaded with our original series, Animal Island Learning Adventure (AILA), and offers a high-quality preschool program that **supports daycare and preschool teachers** by bolstering foundational learning.

AILA Sit & Play delivers content that follows the scope and sequences of early childhood program best practices – **perfect for your learning stations**. This product helps daycare and preschool teachers by reinforcing their preschool program for toddlers (12 to 36 months).

The AILA Sit & Play is the perfect tool to use with learning stations, giving each child a fun and engaging way to learn the fundamentals of academic success.

The Learning Journey Starts Here

Developed and curated by educators and innovators, **Animal Island Learning Adventure (AILA) Sit & Play™** is a preschool learning system with unlimited original content delivered on a toddler-friendly device. There are no ads, no inappropriate content, and no subscription fees. AILA prepares toddlers 12–36 months for preschool and kindergarten.

Daily Learning Adventures

Each learning session includes curated songs, stories, an introduction to key concepts such as letters, numbers, shapes, or colors and engaging game play. Multimodal experiences encompass a variety of learning styles and provide a developmentally-appropriate curriculum. Animal Island Learning Adventure (AILA) ensures a child-centered, engaging experience through its original characters, songs, and scenarios that illustrate positive interactions and behavior.

Scope and Sequence

The Animal Island Learning Adventure (AILA) preschool program helps toddlers develop literacy, numeracy, vocabulary, and social-emotional skills. Lessons come in the form of adventures, allowing children to learn in ways that are natural, engaging, and comforting. Along with benefitting from our preschool program, toddlers, through interactions with onscreen animal friends, learn important soft skills such as polite speech, empathy, and how to make friends. Over the course of their learning journey, toddlers see twenty-first century skills -- communication, creativity, collaboration, and critical thinking -- on display at their finest.

Literacy Skills

Letter Awareness: All twenty-six letters of the alphabet with their corresponding sounds, including phonological awareness.

Narrative Awareness: With immersive storybooks, toddlers gain an understanding of narrative as both fun and instructional, essential for preschool readiness.

Print Awareness: Understanding print is read from left to right, from top to bottom; understanding of letters and spaces appear between words.

Soft Skills

SEL: Observation, exploration; social-emotional skills such as managing emotions, making friends, collaborative problem solving, resiliency, and adaptive learning.

4 C's: Communication, collaboration, creativity, and critical thinking.

Vocabulary

Vocabulary Awareness: Key vocabulary words utilizing initial letter sounds to help toddlers learn 1000 unique words by age three.

Numeracy Skills

Number Awareness: Recognizing and counting numbers 1-10; applying this awareness to size and quantity.

Concept Awareness: Understanding concepts of size, shape, and quantity as foundational problem-solving.

Additional Features

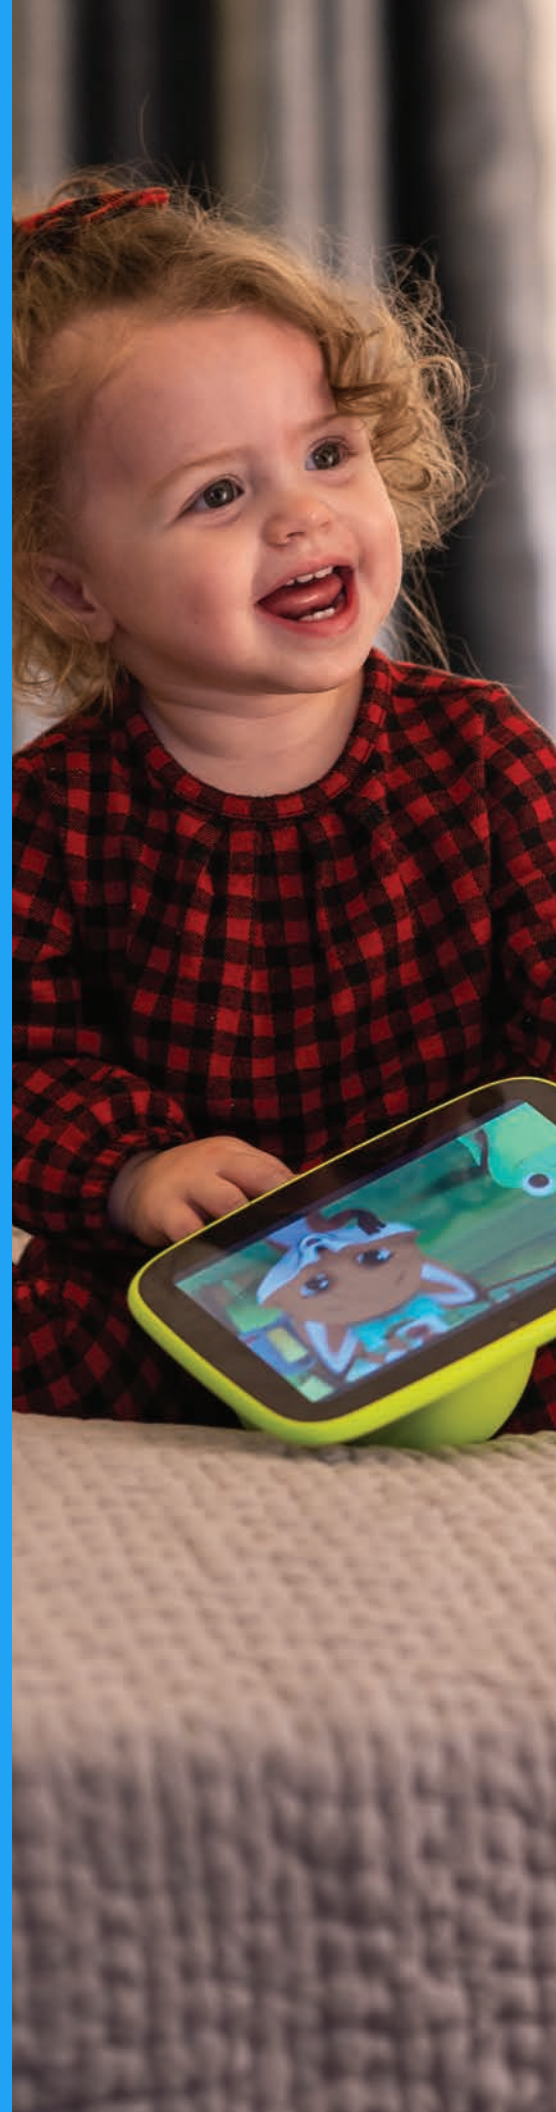

Songs: Original and classic sing-along songs reinforce lessons of letters, numbers, shapes, and colors.

Lullabies: For winding the day down, or simply for quiet times.

AILA Sit & Play

Program Benefits

- ✓ A child's interest, preferences, and motivation contribute to a tailored learning experience.
- ✓ Curated original content with colorful animated characters models language and fosters communication.
- ✓ Preschool concepts are taught in a learning progression that takes educational objectives, developmental milestones, and age into consideration.
- ✓ AILA modes (Broadcast, Learning, Lullaby) meet emotional and cognitive needs of the child.
- ✓ Curated content and time limits promote healthy, educational, and fun use of technology.
- ✓ Real-life videos and images, as well as suggested offline activities, bridge online with offline and support STEAM concepts.
- ✓ Age-appropriate images, animation, and stories stimulate cognitive learning and creativity.
- ✓ Character interactions and real-life videos model appropriate social emotional behavior and 21st Century skills.
- ✓ AILA Parent App enables parent and child visual and verbal communication.

Essential Preschool Learning System for Toddlers

AILA Sit & Play™ offers a fun and robust preschool program that centers around building the learning skills needed to be ready for kindergarten. The learning experiences with the Animal Island characters provide toddlers and preschoolers with fun opportunities to develop literacy, twenty-first century skills, and STEAM skills. Children get a head start to master letters, vocabulary words and numbers through early exposures and repetitive practice.

AILA Sit & Play offers high-quality preschool content developed by professional educators and innovators. A perfect solution for creating engaging learning stations! During each curated session, AILA engages toddlers with songs, stories, and key concepts, such as letters, numbers, vocabulary, shapes, and colors.

Classic songs that support language development & self-expression

Movement

Activities to enhance toddlers' gross motor skills and creativity

Social-Emotional Learning

Playful characters demonstrate friendship skills & critical thinking

AILA Preschool Read Aloud Stories Book

Encourage an early love of reading and learning

Read Aloud Stories contains the complete library of all sixty storybooks included in AILA Sit & Play Preschool Learning System. Delight your students by reading these stories aloud, or students can follow along as Mr. Goose reads them on AILA Sit & Play.

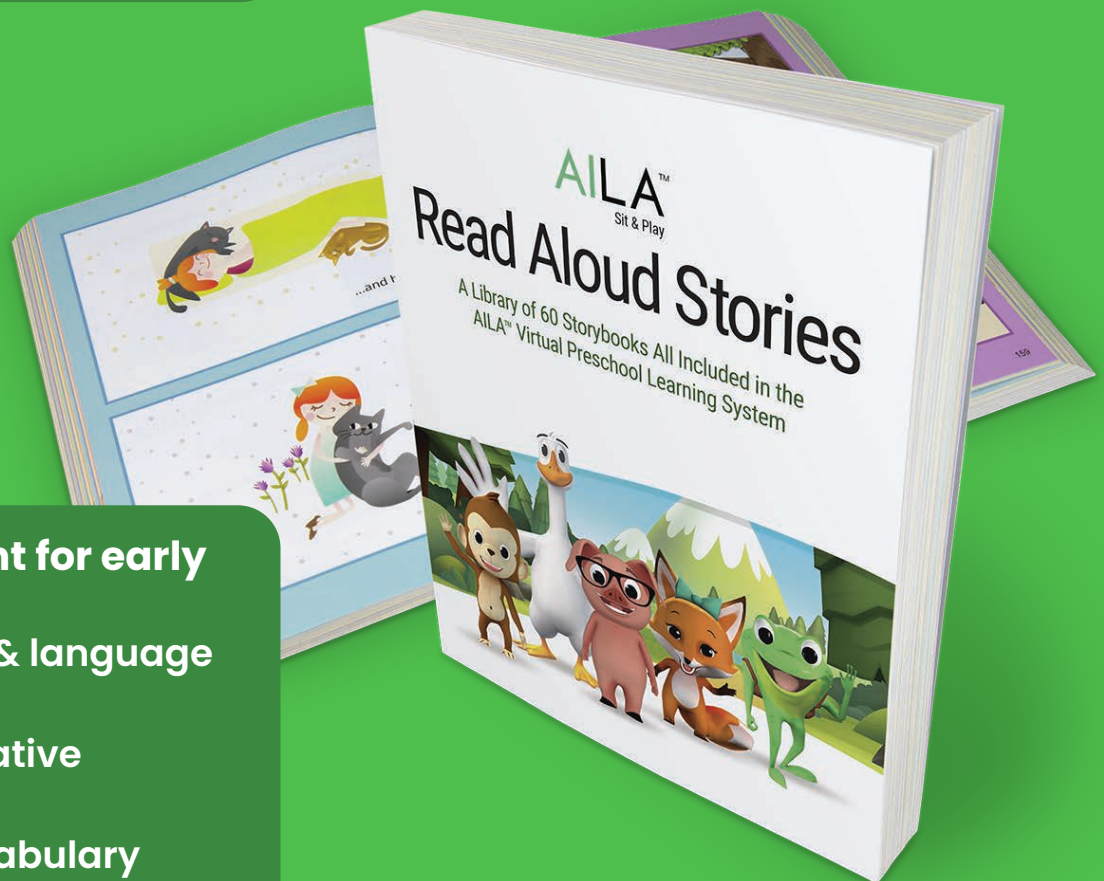

When you open the Read Aloud Stories book and read aloud to your class, you are helping students discover the power of stories to change lives, minds, and hearts.

400+ page softcover book

Includes the 60 storybooks from AILA Sit & Play

Curated content for early learning

- Builds literacy & language skills
- Promotes narrative appreciation
- Reinforces vocabulary
- Improves attention span and cultivates patience

AILA Preschool 250 Words Book

This large-format book is perfect for hands-on learning with your class. Designed to introduce the letters A-Z with key words, matching illustrations, and oversized letters for tracing.

250 first words with matching illustrations

- Letters and letter tracing
- Counting and numbers
- Hidden picture games
- Activity pages for shapes, colors, body parts, and more

Large format makes learning easy and fun!

The **250 Words Book** complements AILA's preschool curriculum goal of raising confident learners. The carefully selected words and activities provide a foundation for early literacy that, together with your child's physical, social, emotional, cognitive, and language learning development, has a direct effect on their future academic success.

Frequent exposure to the 250 Words Book will allow your students time to build early literacy skills, and they'll be delighted to share what they've learned. Together with AILA Sit & Play, the 250 Words Book strikes a healthy balance between meaningful digital and real world learning.

Build Vocabulary
Labeled pictures for each letter of the alphabet.

Trace Letters
Large letters with tracing lines to teach pre-writing skills.

**Prepare for
Preschool**
Colorful activity pages teach colors, shapes, body parts, counting, and more.

**Find Hidden
Pictures**
Things to find on each activity page. Count the hidden wiggle bugs throughout the book!

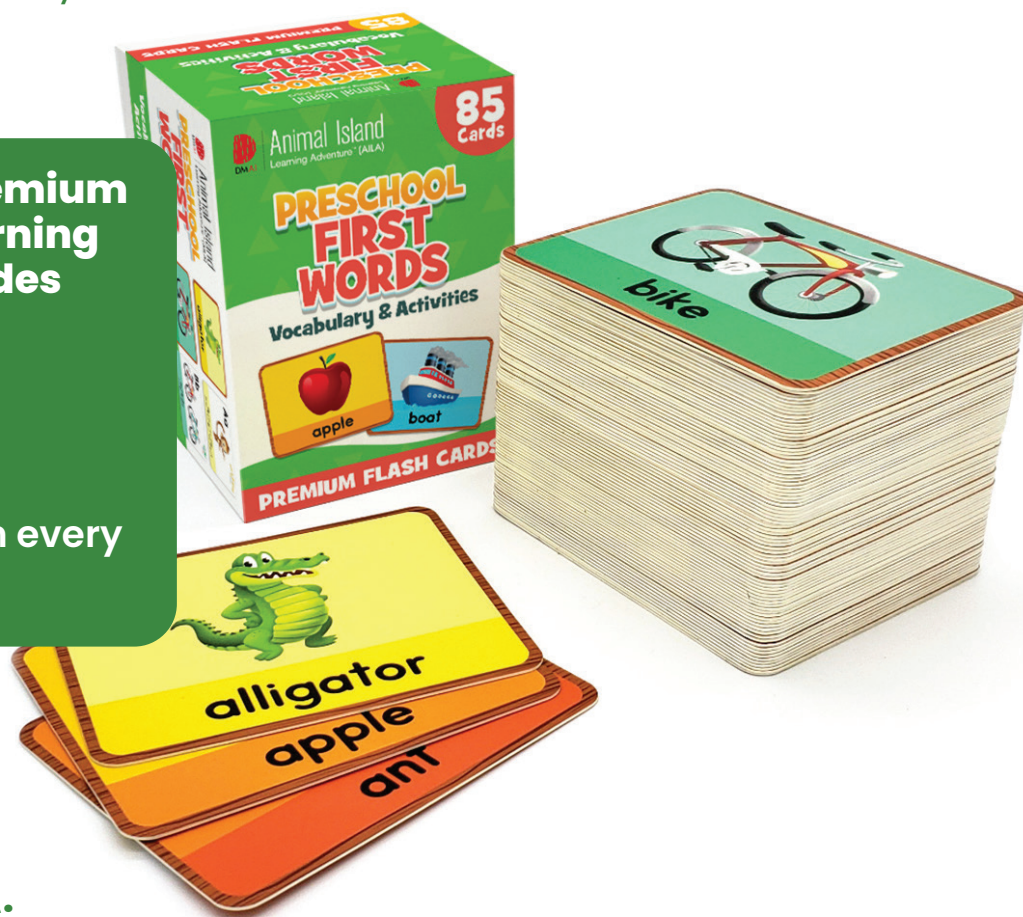

AILA Preschool First Words Flash Cards

Reinforce Your Child's Preschool Readiness Skills

Our colorful flash cards open a world of learning for toddlers. With the flip of a card, early learners will gain a robust introduction to their preschool first words building vocabulary and fluency.

85 double-sided premium flash cards with learning activities on both sides

- Extra large and thick premium flash cards
- Vocabulary building
- Preschool readiness
- Learning activities on every card

Using our Flash Cards:

Our flash cards set is designed to reinforce preschool readiness skills. Each card will fuel the natural curiosity of toddlers, offering hours of invaluable learning. These cards will support toddlers as they broaden their cognitive development through learning activities that promote curiosity, creativity, and critical thinking. Each card makes learning fun and accessible.

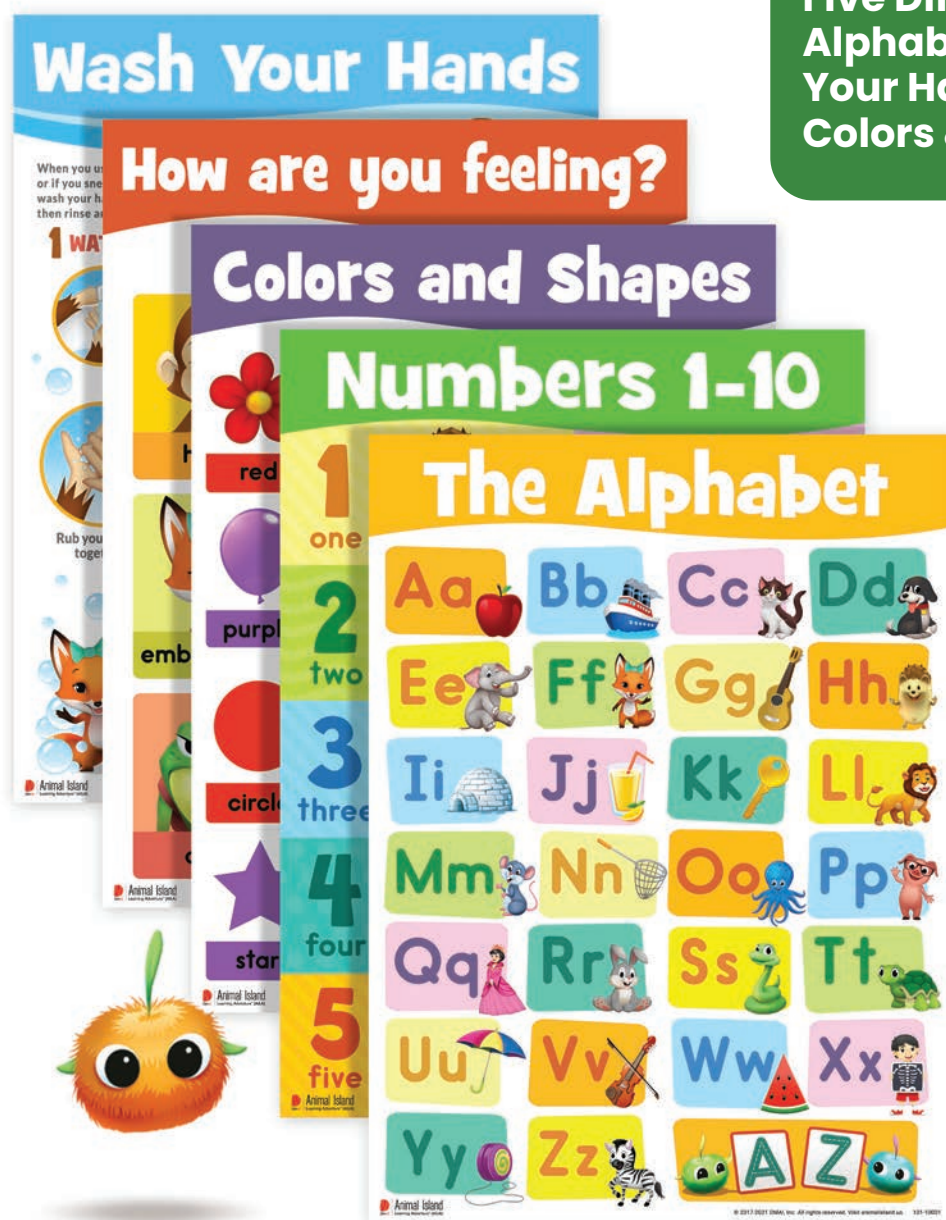

Learning Together:

Our cards are slightly oversized for toddlers, and they can be wiped clean with ease. The rounded corners help keep little fingers safe. Our flash cards provide toddlers ample opportunities to develop their literacy and numeracy skills in ways they will find fun and engaging.

AILA Preschool Classroom Posters

Designed to reinforce the preschool curriculum toddlers are learning through AILA Sit & Play and the 250 Words Book. Children will love seeing these posters in their classroom and recognizing their animal friends on Animal Island. Includes a set of five (5) posters.

**Five Different Posters:
Alphabet, Numbers, Wash
Your Hands, Feelings, and
Colors & Shapes**

Daycare Review

"I work with inner city kids from middle and low income families. They deserve the best. I believe they can have a promising beginning and a good foundation of learning. I'm very thankful they can get a head start with AILA."

New Life Harvest Church
Maria Benjamin
Director of Next Generation Learning Center
Richmond, VA

Preschool Teacher Review

"By observing our children using AILA, we have realized that their attention span is more than fifteen minutes. We timed it and it was actually thirty minutes! They really got into learning their letters and singing along with the animals when they sang nursery rhymes! As for groups, we sometimes let three per group or sometimes we use AILA for one-on-one time. Overall, they have really enjoyed AILA and they are always ready to learn something new!"

Jellybean Junction Preschool

Preschool Teacher Review

"In my classroom the children have really enjoyed this program. AILA is an educational tool that helps us learn and support our children's cognitive development, early literacy, numeracy, social skills and emotional growth. They really enjoy the group interactions, which usually consist of 2 or 3 children, interacting with each other, having the opportunity to share and learn together. The one-on-one time also helps me to focus on a specific topic depending on the needs and abilities of each child, and can last anywhere from 15 to 30 minutes. AILA's stories, songs and activities capture the children's attention and stimulate their learning. The educational language is appropriate for children and thanks to repetitive learning, our children advance in the mastery of letters, vocabulary and numbers."

Preschool Teacher Review

"For the last two months, I have been using AILA Sit & Play at home and at school. In my classroom, I use AILA as a learning center. My pre-k students enjoy the fun and engaging songs and stories. The AILA center is one of their favorites to visit. At home, my son loves to hear the songs about colors. I can say that because of his engagement with AILA Sit & Play, he has mastered all his colors! AILA Sit & Play is a great tool for learning through play."

Jamaica Kirby

The Alphabet

Numbers

Preschool Teacher Review

"I can't say enough about how great this program is! I was looking for something that my young toddler would benefit from. All the iPad programs were too interactive and, I felt, way above what he needed at the moment. I'm so glad I chose this for my little learner."

"I am a teacher myself, and AILA has so many amazing qualities to it that my child has truly blossomed. AILA is a part of our daily morning routine. My son calls it his 'lesson' and asks for it every morning! He has learned so many new words, and I believe it is also because of this program. His favorite is the monkey dance. I love that it focuses on a new letter daily but also at the end of each lesson will review a skill they learned from the past. We started AILA when my son was 22 months, and he is now 25 months. We use it daily and the difference is amazing. My 8-month old loves to watch with him! When she hears the beginning song come on she wants to be right there with him."

"One small thing I LOVE as a teacher is teaching the power of YET! This program incorporates that when the characters don't know a song. The frog says, 'You don't know it, YET!' -- which is so powerful, to teach all kids they can and will learn!"

"Again, if you didn't get it from my comment, yes I 100% recommend this to anyone for the recommended ages!"

"We just love it! Thank you for all your hard work into this program. I know it took a lot of research and time!"
