# Ultimate Seamless Flooring System

Ultimate Seamless Flooring is a concrete flooring system consisting of Ultimate Epoxy and/or Polyurethane with Ultimate Designer Flakes. The system is suitable for both interior and exterior concrete surfaces, is highly durable and water resistant. The Designer Flakes gives traditional concrete floor a decorative flake floor finish. Ultimate Seamless Flooring is suitable for residential and commercial spaces.

## KEY FEATURES AND BENEFITS

**LOW MAINTENANCE**  
Easy to clean surface.

**LOW VOC**  
26g/L

**HIGHLY DURABLE**  
Hard wearing, with a non-chip finish.

**WATER-RESISTANT**  
Protects surfaces.

**UV RESISTANT**  
(with two-pack polyurethane)  
Reflects UV, protects against degradation.

**APAS APPROVAL**  
Ultimate Satin Epoxy Light Grey N35 is an APAS approved product.

## Uses

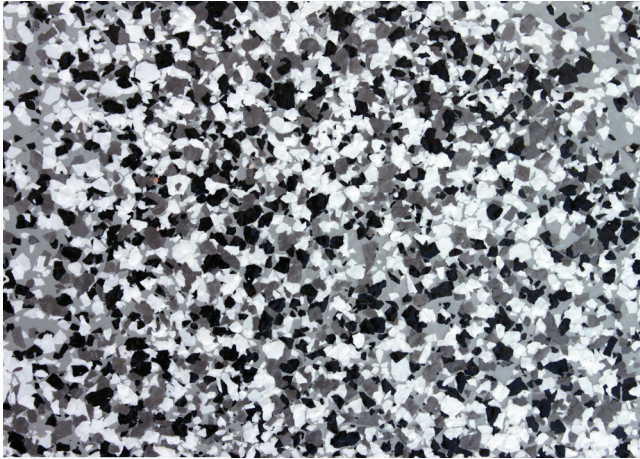

Ultimate Designer Flakes is the second step of the three-step Seamless Flooring System. The flakes are spread over wet epoxy at a desired coverage rate. Changing the coverage rate will affect how much of the base coat colour is visible affecting the floors appearance. Please refer to the Product Data Sheet for detailed application instructions.
