TREADMILL

RUN TOWARDS YOUR GOAL

One run can change your day, but many runs can change your life. XTERRA Treadmills are designed with every fitness level in mind.

Whether you're a beginner, competitive runner or triathlete; everyone can experience the mental and physical benefits of running on an XTERRA Treadmill.

The secret to getting ahead is getting started, so start your journey with running equipment designed for you.

SMARTER WAY TO EXERCISE

Touchscreen Display

Interactive 10.1" touchscreen display offers preloaded apps, workout history, screen mirroring technology, fitness tests and programs, and a lot more.

Bluetooth Connectivity

Dive into the world of digital fitness with Bluetooth connectivity. Pair the treadmill with the most popular Fitness Applications on the market.

Integrated Audio Jack and Speakers

Every workout needs a soundtrack to make the training process easier.

Convenient Incline and Speed Controls

Simply because control belongs in your hands. Built-in speed and incline controls in handlebars create training convenience and safety.

TREADMILLS

XTRASoft Shock Absorption Deck

The XTRA soft deck cushioning technology provides multiple points of cushioning throughout the deck support system for maximum impact absorption.

Powerful Motor

The heart-pounding speed range up to 20 km/h and 15 different levels of incline is powered by a smooth and quiet XTERRA 3.25 HP motor.

Aluminum Side Frame platform

Aluminum side frame platforms not only look great - they also provide a secure surface to stand.

Designed for All Spaces

Lift Assist and Safe Drop features help you safely and easily fold and set up the treadmill. While the integrated carriage design with transport wheels provide easy storage and mobility.

ADVANCED FEATURES FOR ALL FITNESS LEVELS

Our smart treadmills are built to help athletes of all abilities get the most out of their training. The built-in features make workouts fun and accessible for everyone.

Elevate your fitness experience by training with XTERRA Fitness Performance, Sport, and Compact series treadmills.

SMARTER WAY TO EXERCISE

TRX5500

The XTERRA Fitness TRX5500 Folding Treadmill is built for those who want to take their workout to the next level and do it in an entertaining way. Just tap the premium 10.1" touchscreen to easily navigate all your workout and entertainment options. Bluetooth FTMS lets you connect to apps like Zwift and Kinomap so you can work out virtually on amazing courses with runners around the world.

- Challenge your body and mind with 33 preloaded workout plans.
- Smooth and quiet high-torque 3.25HP motor.
- XTRASoft deck cushioning.
- Built-in fan to keep body cool.
- ZWIFT compatible

TRX4500

The premium features and advanced design of the XTERRA Fitness TRX4500 Folding Treadmill allow advanced runners to challenge themselves and maximize their results. A selection of advanced features which include the oversized 7.5" LCD screen, a console with 30 pre-set programs and direct access control buttons provides the variety needed to take your fitness to a new level.

- Smooth and quiet running experience
- Joints-friendly XTRASoft cushioning technology
- Variety of pre-set programs
- Spacious running surface
- Up to 15 levels of incline
- ZWIFT compatible

TRX3500

This treadmill combines quality, performance, and great looks with the premium features you desire in a home treadmill. The console display features a large 6.5" Blue Backlit LCD screen with available 30 pre-set programs. Experienced runners will find everything they need for daily training.

- Easy to read LCD screen
- Comfortable handlebar controls
- Joints-friendly XTRASoft cushioning technology
- Best "pound-for-pound" XTERRA treadmill
- ZWIFT compatible

TRX2500

Whether your goal is losing weight or training for your next big adventure, the XTERRA Fitness TRX2500 Treadmill brings all of the tools you need right in the comfort of your home. The powerful XTERRA 2.25 HP motor provides speeds up to 16kph while the users can also vary the large 20" x 55" belt to incline levels from 0 to 10 for maximum workout variety.

- Smooth yet powerful motor
- Listen to your playlist with installed speakers
- Featured Lift Assist and Safety Lock
- Joints-friendly XTRASoft cushioning technology

i-POWER PLUS

Built with intuitive details that are designed to offer the ultimate workout experience, the XTERRA Fitness i-Power+ folding treadmill features 10 incline levels, an easy-to-use console, an adjustable tablet holder and a top speed of 16km/h.

- Smooth and quiet 2.0 HP motor
- Joints-friendly XTRASoft cushioning technology
- Storage convenience
- Extensive 24 pre-set training programs
- 10 levels on power incline
- Easy assembly process

TR260

The XTERRA Fitness TR260 Folding Smart Treadmill is built to help athletes of all abilities get the most out of their training. The built-in features make workouts fun and accessible for everyone.

- Powerful XTERRA 2.25 HP motor
- Speed range of 0-10 mph
- 10 Levels of power incline
- Large 5.2" LCD display
- Comfortable 16x50" running surface

ELLIPTICALS

WE ARE WHAT WE DO EVERYDAY

Cardio exercise is an essential part of a healthy lifestyle. Make it your habit, your daily routine. XTERRA Ellipticals make it easy for you to build that habit and stay fit from the comfort of your home. These low-impact, full-body machines are an excellent alternative to running.

Ellipticals provide excellent aerobic workouts and burn calories with minimal impact on your joints. XTERRA Fitness ellipticals are engineered for comfort and durability.

HEALTHY LIFESTYLE

Compact Design

This new folding frame makes it easy to store your elliptical between workouts and saves your home space area.

Convenient Console

The FS480 console features a modern 5.5" LCD screen, intuitive control panel, built-in heart-rate monitors, and an integrated mobile device holder.

Natural Stride

Ergonomic 18" (457 mm) stride length provides a comfortable elliptical motion for users of different heights and sizes.

Fitness for All

With 24 magnetic resistance levels and a big variety of pre-set training programs, any user will find this elliptical to be optimal for their fitness journey

FSX3500

The XTERRA FSX3500 Elliptical is our flagship elliptical trainer. It provides an ultra-smooth total body workout with synchronized upper and lower body movements. The patented front-drive design maximizes your use of space with a small footprint while providing a movement that is effective and bio-mechanically correct.

- The smoothest training experience
- Power incline
- Handlebar speed/incline controls
- Audio-speakers
- 6.5" LCD Screen

FSX2500

Enjoy the benefits of better health and fitness with new XTERRA FSX2500 Elliptical. Whether you are looking to slim down or tone up, the FSX 2500 will help you train more efficiently. Built with 24 levels of resistance and 28 program options to keep your workouts fresh and your body challenged.

- Most comfortable elliptical in the class
- Heart Rate monitoring
- USB charging station
- Audio-speakers

FSX1500

XTERRA FSX1500 is one of the most effective cardio machines for the whole body. It strengthens different muscle groups with less impact on the joints. Durable materials and innovative technology ensure a smooth and physically correct movement.

- Extremely smooth feeling
- Comfortable stride length
- Convenient folding frame
- Challenging 28 training programs

FS480

Health is a lifestyle. Fitness is a lifestyle. Make it be your habit. Xterra Fitness is here to support athletes with the best elliptical equipment designed to help them excel. The FS480 folding elliptical is designed for compact spaces to deliver the best free-motion exercise experience.

- Compact design
- Convenient console
- Natural stride
- Fitness for all

HEALTHY LIFESTYLE

CYCLING IS IN OUR DNA

XTERRA Fitness has spent years working with amateur and professional athletes to help them realize their dreams of adventure.

Whether it's burning calories, honing your muscles, or winning your first triathlon race, begin your adventure with an XTERRA Bike. Built with durability, innovation, and functionality in mind:

XTERRA Bikes exceed expectations.

NO TIME TO WASTE

Step-Through Design

The SB4500 Recumbent Bike packs the latest technology into an affordable, compact, step-through frame design that lets users get in and out of the bike easily.

Bluetooth Connectivity

Built-in Bluetooth FTMS to connect to popular third-party apps including Zwift and Kinomap.

Touchscreen Display

The console features an easy-to-read 7" touchscreen that tracks and display important training data like speed, calories, and distance.

Settings for Every Fitness Level

No matter what your fitness level is, the SB4500 will ensure you get a workout that is matched to your desired intensity with its 24 levels of on-demand resistance.

SB4500

The XTERRA Fitness SB4500 Recumbent Bike packs the latest technology into an affordable, compact, step-through frame design. The console features an easy-to-read 7" touchscreen display with built-in Bluetooth FTMS to connect to third-party apps, a USB charging port for your devices, and a large accessory tray to give you the freedom to bring your favorite fitness trainers and apps along for the ride.

- Step-through design
- Bluetooth connectivity
- Touchscreen display
- Settings for every fitness level
- 7" touchscreen

DU22

If you want something you have never had, you must be willing to do something you have never done. There is no more need to limit your cycling time to before or after work, when you can do both at the same time with all-new Upright Desk Bike.

- Comfortable work station
- 8 levels of resistance
- Designed for all heights
- 1.9" LCD screen with 5 readouts

NO TIME TO WASTE

R15

The R15 recumbent bike delivers the most comfortable and safe workout possible due to a combination of innovative design and advanced technology. This bike features a comfortable seat, all of which combine to offer unsurpassed comfort. The 5.5" LCD console offers the features you're looking for in a recumbent bike, helping you track speed, distance, time, calories, and pulse.

- 5.5" LCD console
- 24 challenging resistance levels
- Handlebar HR sensors
- Comfortable seating

U15

The best fitness experience is all about the details. With this upright bike, you aren't just working out – you're enjoying the comfortable ride. Our seat saddle has added cushioning and easily adjusts, both horizontally and vertically, to give you the perfect fit.

- 5.5" LCD console
- 24 challenging resistance levels
- 4-Dimension seat adjustability
- Up to 120kg user body weight limit

E15

The E15 elliptical is an excellent belt-driven cardio machine for home use that lets you take fitness to the next level. 23 training programs and 24 challenging resistance levels allow for further customization that caters to each user's fitness levels and goals.

- 5.5" LCD console
- 24 challenging resistance levels
- Ergonomic stride length
- A cup holder

ROWERS

SIMPLE YET POWERFUL

Go beyond your conditioning expectations and add a new dimension to your fitness routine with an XTERRA Rower.

The XTERRA line integrates comfort with elements of the outdoors to provide a challenging and smooth rowing experience.

Bring a unique and highly effective full-body workout to the comfort of your home with rowing machines that are made to help you build a better you.

REACH TO YOUR POTENTIAL

Advanced Tank and Impellers

Our advanced XTERRA impeller design is lighter, features larger outer edge blades for more efficient power transfer, and has a more realistic on-water rowing feel.

Built with All Athletes in Mind

Comfortable fits users up to 185cm in height and has a 130kg user weight limit.

Bluetooth FTMS Compatible

Bluetooth FTMS for connecting to 3rd party fitness apps like Kinomap - this helps you stay motivated and on top of your training.

Functional Interface

Large, 5" LCD monitor with adjustable angle displays Total Time, Time/500m, Strokes Per Minute, Distance, Strokes, Total Strokes, Calories, Watts, and Pulse.

ERG550W

The XTERRA Fitness ERG550W water rowing machine is built to help you get the most out of your training. Rowing is known to be one of the most effective full-body workouts around, and we set out to make it fun and accessible for everyone.

- Advanced XTERRA impeller
- Rust-free heavy-duty aluminum rails
- 3rd party apps compatible
- 6 water-based resistance levels

ERG600W

Bring the unparalleled full-body workout of on-the-water rowing home with the premium design and feel of the XTERRA Fitness ERG600W Water Rower.

- Impellers active motion through the water tank
- 5 Programmable modes
- 6 water-based resistance levels
- Large 5.5" LCD Console
- Realistic rowing feeling and results

ERG650W

The XTERRA Fitness ERG650W rower is built to help you get the most out of your training. Rowing is known to be one of the most effective full-body workouts around, and we set out to make it fun and accessible for everyone.

- Maximum full-body training
- Over 15 programmed workouts
- 6 water-based resistance levels
- Realistic rowing feeling and results

ERG220W

The solid steel frame construction of the ERG220 rower with full-length dual aluminum rails offers a smooth, quiet, and effective exercise experience. Comfort and convenience are at the core of the XTERRA Fitness ERG220 magnetic rower.

- A smooth and quiet stroke
- No plug required
- Contoured seat
- Designed for all spaces

REACH TO YOUR POTENTIAL

DESIGNED FOR YOU HOME GYM

The XTERRA Fitness adjustable dumbbells are designed to offer the most versatile training experience to our clients. The weight ranges from 1 kgs. all the way to 25 kgs., offering a wide selection for different exercises. Users can quickly and easily change the weights in a matter of seconds.

TOOLS TO BECOME PERSONAL BEST

Five Weight Options

XTERRA adjustable dumbbell works quickly by turning the handle to the weight you need. There are 5 weight sizes in 3 different dumbbells: 1-5kgs, 2-10kg and 5-25kgs.

Storage Dock

The sturdy dock tray holds the weight plates and secures them to stay in place. With grooves on each side, you can store the dumbbell and move around freely.

Quick and Easy Adjustability

Keep your strength training fast and convenient with no knobs to turn or levers to slide. Simply place the dumbbell into the cradle, twist the handle to change the weight, and go!

Clear Visual Marking

The number of pounds on the dial is clear and simple to read. You'll hear a click sound when the dial is rotated and adjusted to the right weight.

AD05

The XTERRA Fitness AD05 Adjustable Dumbbells were created to provide an easy-to-use, compact and portable solution for all your fitness goals. Designed with your busy lifestyle in mind, weight adjustments are as quick and easy as possible.

- The weight range of 1-5 kgs.
- Countered handle
- Convenient cradle

AD10

Solid steel plates, CNC machining, and powder-coated paint ensure long-lasting plate durability. The hex shape of the plates prevents rolling for a safe and effective workout. Knurled and contoured, chromed steel handles are built to provide secure and comfortable use.

- The weight range of 2-10 kgs.
- Quick adjustability
- Convenient cradle

AD25

The weight range of 5-25 kgs. allows users of all fitness levels the opportunity to execute a wide range of workouts without the added bulk and cost of multiple dumbbells. Take your workout on the go with the included easy-carry high-strength tray. And when your workout is complete, the compact design allows for easy storage and portability.

- The weight range of 5-25 kgs.
- Quick adjustability
- Convenient cradle

DUMBBELLS RACK

The XTERRA Fitness Adjustable Dumbbell Stand was created to provide a compact, accessible solution for your demanding strength training workouts. It was designed to maximize floor space while allowing quick and easy access to your dumbbells.

- Quality compact design
- Easy and accessible
- Extra added features
