

**MOVE YOUR SPIRIT**

Integrating critical components for gym level performance

The needle bearings that encompass the pedals and flywheels axle, the industrial grade Hutchinson PK poly-V® belt, and our three piece crank work synergistically to create the perfect formula for durability and performance.

**FEATURES:**

- The 64 kilogram frame consisting of 2.5 mm thick oval tubing and round bars enhance stability and longevity.
- To prevent sweat corrosion, double powder paint is coated. The concave groove on the flywheel disperses sweat, extending the life of the flywheel.

**VELO® RACING SADDLE**

The Velo® Racing Saddle grants professional comfort. For more than 30 years on the market, the brand incorporates shock absorption, flexibility, lightness, cooling effects, and ergonomics into the construction of saddles. The CB900's saddle provides the same high quality.

## **SPECIFICATIONS**

|                        |   |
|------------------------|---|
| <b>Console</b>         | Optional Single LCD, One-Window Console   |
| <b>Programs</b>        | N / A   |
| <b>Heart Rate</b>      | Telemetric ( Chest strap sold separately )                                      |
| <b>Resistance</b>      | Rotary Knob; Micro-Adjustments  |
| <b>Drive Train</b>     | Industrial grade Hutchinson PK Poly-V Belt                                      |
