

**MOVE YOUR  
SPIRIT**

The CG800 eGlide Trainer was designed for groups / classes or individuals that like to create their own workout scenario in the commercial environment. It will appeal to both runners and cyclists as a cross training modality that is full weight bearing, without the impact. The unique Patented Direct Drive System, optimally weighted pedal arms, dual-action handlebars, 2° inverted foot pedals, and stride length combine to create the perfect formula to assure a frictionless stride. This motion creates what we call the "floating" effect. Once your clients reach a certain RPM, they will start to "float" and experience the smoothest possible gait pattern.

**FEATURE:**

- Patented Direct Drive System produces a unique workout experience.
- Infinite resistance adjustments to satisfy every fitness level.
- Telemetric Heart Rate for hands free monitoring.
- 30 lb. flywheel generates the optimum amount of inertia.
- Battery powered console means there is no need for electricity.
