SB700

SOLE
FITNESS

PRODUCT OVERVIEW

- The smoothest ride in home cycling
- Oversized foot pedals
- Adjustable seat and handlebars
- Turn dial makes adjusting resistance levels easy

The SOLE SB700 brings the next level of exercise to both the indoor and outdoor cyclist. SOLE engineers have combined the needs of both types of users to design a comfortable, affordable cycle providing the ultimate exercise experience in your own home or a light commercial setting. The SOLE SB700 was engineered with comfort at the forefront of its design. The seat and handlebars are fully adjustable, allowing each user to find the right settings for a great workout, while the sturdy frame, heavy weight flywheel, and reliable braking system ensure a smooth and quiet ride.

SB700
