FIVE HEARTS

New Brand Ambassador Outline

WHERE TO START?

Head to the website **fivehearts.com.au** and check out info on the **home page** and **about us page** to learn who and what Five Hearts is about. It's incredibly important to feel *aligned* with my brand and know who you are talking/working with going forward.

WHAT'S NEXT?

If you feel super pumped and aligned after discovering more about Five Hearts, saying hi to me by name is *huge* for me! When you take the time to discover who is behind a business, it really opens the door + gets me excited about meeting you!

So many cut + paste dm's come through for collabs etc. sometimes several a day. Showing you've done your 'research' + are keen to follow and engage with my brand on socials - that will immediately set you apart from the rest!

A LITTLE ABOUT YOU!

You have to love taking photos and video!

Feeling comfortable in front of the camera yourself and/or having friends and family keen to get in on the 'action' is super important for creating engaging content + for you to enjoy yourself while doing so!

Have a real love for the great outdoors

Or even love to dabble in a little interior decor - our pieces can be used wherever you dream after all. We do love featuring stunning outdoor images, real-life moments along with more catalogue style images which tends to evolve with seasons.

Be reliable + committed to agreed terms

I am always flexible with contracts and timeframes, at the end of the day, communication is so important. Having ambassadors and creators come to help 'raise' my little business baby, means a lot and I hope to build strong trusting relationships which have the ability to grow with my business.
