

90's vibe non-alcoholic punch

I have always been a sucker for this super simple punch. Recently I have whipped it out on a few occasions and it's always a hit. Want to spike it? Add a shot of vodka or white rum to the bottom of your glass and pour the punch on top, that way it can be shared with kids and those not drinking!

Makes 4.5-5L in total

Ingredients

- 1.25L Lemonade
- 1.25L Ginger Ale
- 1L Tropical Juice
- 1 can of Passionfruit pulp
- Fresh fruit - think pineapple, grapes, pear
OR large can of Fruit Salad
- Large ice cubes (approx 2-3 cups)

Directions

- Make sure all drinks are chilled first where possible, you don't want the ice to water your punch down.
- Using a 2.5L jug (jug in photos from Kmart), add in 1-2 handfuls of bite-sized cut fruits (or half the can of fruit salad) and half a can of passionfruit.
- Add 3-5 large ice cubes or 1-2 cups of smaller ice cubes/crushed ice.
- Pour in 1/2 of the juice, 1/2 of the lemonade and 1/2 of the ginger ale.
- Using a long swizzle spoon (if you're extra like me and own one) or any long utensil will do, give the punch a gentle stir to ensure flavours are combined and serve!
