WIRELESS VISUALIZATION SYSTEM

A **wireless visualization system** with the functionality and freedom you want for any analog endoscope.

Tower Endoscopic Visualization

Endoluxe Endoscopic Visualization

- The Orb is a 5 mega pixel camera with a touch screen display and proprietary 9000 Lux LED light source

- Charger conveniently stores and recharges the orb with a reliable docking interface

- Quickly couples to virtually any analog endoscope

- Wirelessly pairs with the Receiver to capture images and video while streaming to your remote display or our cloud application

Endoluxe is the ultimate endoscopy wireless visualization platform with uncompromised quality and unparalleled cost efficiency. The intuitive operation and simple setup make it the ideal solution for all your visualization needs.
