HELLO

Thank you for being interested in our company. We are a family-owned and run business dedicated to helping provide the best skin care possible, that is also affordable. All our products are handmade in small batches locally in North Carolina.

We believe in using pure, simple ingredients that naturally clean, nourish, and restore skin. This includes being chemical free! Our products have no synthetic chemicals. We avoid any ingredients that are parabens or petroleum derived, and every fragrance in our products is from high grade essential oils.

We believe in products that do MORE with less. We want to encourage people to be naturally different: to try products made with a few powerful ingredients designed to protect and renew your skin. Our products are ideal for all skin types--even the most sensitive skin.

INGREDIENTS MATTER

all natural foot cream

The total foot cream package—everything one needs to keep feet healthy and looking great. It hydrates and locks in moisture to treat cracked heels and tough calluses, while anti-fungal, antibacterial, and anti-inflammatory essential oils provide soothing relief from odor and athlete's foot.

Our foot cream contains 10 simple organic and natural ingredients, including therapeutic grade essential oils of Peppermint, Lavender, Eucalyptus, and Tea Tree. While highly rejuvenating, it also promotes improved blood circulation and provides a gentle relaxing sensation that's perfect for soothing achy feet and relief from neuropathy.

WHAT PEOPLE ARE SAYING ABOUT OUR FOOT CREAM

“

After years of dry cracked heels, this foot cream has healed them after just one week! No more cracks... no more pain. Even after a hot shower, my heels are still moisturized. I apply morning and night (sleeping with socks on). Simple... and simply wonderful!

Beyond belief. I've had athlete's foot for about a year and I've tried many homeopathic remedies to no avail and decided to take a chance on this. I'm so glad I did!! Within the first 5 uses I've noticed considerable repair to my feet, especially the scaly, itchy area between my toes and my severely cracked heels. I also convinced my husband to use this and he has seen remarkable results His feet were a plethora of issues

”

the artisan soap collection

All of our soaps are gentle enough for daily use on the face, body, and hands. They work well on all skin types, especially sensitive skin. We make our soap with the best natural and organic ingredients, with many variations and scents. Customers can choose from a wide variety of options – whether they are looking for key, functional ingredients, like Goat’s Milk, Activated Charcoal, or no scent – or if they are looking for a specific scent or benefits from certain essential oils.

WHAT PEOPLE ARE SAYING ABOUT OUR SOAPS

“

I've been using the charcoal soap on my face for about a week now. I have already seen improvement in my skin tone (I tend to be red and splotchy) and my pores look a lot less visible. My face feels squeaky clean after using it, and it has not been drying my skin out at all. I have super sensitive skin, and have tried SO MANY different soaps and cleansers with no luck.

We bought this product originally because our son's classroom had a outbreak of scabies and I found out this product among it's several benefits also can protect from this type of situation. Our 12 year hold loves this product and the soft sent energizes him in the morning shower to help wake him up and leaves his skin smooth without drying it out. Plus we have not had an outbreak!!! We are now going to order more for all of us to use.

”

A close-up photograph of several shampoo bars in a woven basket. The bars are wrapped in white paper with a yellow bird logo and the text 'THE YELLOW BIRD' and 'SHAMPOO BAR'. One bar is clearly labeled 'EUCALYPTUS TEA TREE'.

zero waste shampoo bars

Our shampoo bars clean hair without stripping, provide gentle hair restoration, give a healthy shine, and make the perfect travel shampoo. They contain no harsh detergents and are a natural alternative for psoriasis shampoo or dandruff shampoo.

Great for any hair type: dry, oily, curly, or thin. Castor oil helps with natural hair growth. Kaolin Clay and Sea Salt help remove unwanted buildup and condition hair. Vitamin E rich Argan and Jojoba oils hydrate and protect hair from frizz. Scented with only natural essential oils, no synthetic fragrances that can irritate. They can also be used as a soap or shave bar, making the perfect multi-use product. **To make sure quality and scent stays fresh, we sell in small batches**

WHAT PEOPLE ARE SAYING ABOUT OUR SHAMPOO BARS

“

I started my adventure with shampoo bars and ditching conventional shampoo a few months ago so I've tried two other brands and this one is the winner. SO GOOD. The scent is strong and delicious as you're washing and then just leaves your hair smelling clean, and oh my WORD your hair is so soft after. I don't use conditioner, either! I forgot all about it because I don't need it! (I'm naturally blonde and the ends of my hair are lightened, even! But they're still so healthy!) I feel like it's helping my blonde stay cool-toned and not get brassy too, because of the lack of bad chemicals and buildup. I love it!

”

Blue Tansy FACE OIL

This lightweight face oil is excellent for calming and balancing all skin types. It's packed with essential oils and nutrients that hydrate and moisturize dry skin, balance skin's natural oils, soothe inflammation, and reduce redness. All day nourishment for skin means a healthy-looking complexion and glow.

Both hormones and stress can have a negative impact on how we look. Oftentimes the result is excessively oily skin, acne, and redness. Rich in Azulene, Blue Tansy has been shown to help balance hormones. This face oil is packed with vitamins, fatty acids, and antioxidants that work to help minimize pores, balance sebum production, and prevent future breakouts by giving skin the nutrients it craves.

WHAT PEOPLE ARE SAYING ABOUT OUR FACE OIL

“

I've tried loads of face oils... every brand at sephora to more inexpensive brands and this oil is MY FAVORITE... and I'm basically a professional oil tester at this point. It feels amazing, it smells SO good and I feel like it hydrates without feeling oily better than any of the fancy brands. Thank you!

”

Activated Charcoal Salt + Sugar Scrub

A gentle exfoliating face or body scrub for rediscovering youthful, baby soft skin. Made with the best natural and organic ingredients that won't irritate while also improving elasticity, tightening, and reducing the appearance of fine lines.

Activated Charcoal clears and reduces pore size. Naturally occurring Salicylic Acid in Willow Bark helps eliminate redness and acne. Kukui Nut Oil, Almond Oil, and Grapeseed Oil help keep skin blemish free and glowing. A light layer of these non-comedogenic oils also remain on skin after washing for long lasting skin support. The best exfoliating body and facial cleanser that won't dry out skin.

WHAT PEOPLE ARE SAYING ABOUT OUR SCRUB

“

This product is AMAZING. I've never really gotten excited about a scrub, until now. I love that it can be used on the body as well as the face, that saves time in the shower. Normally scrubs can be harsh and drying, but because of the avocado oil, this one leaves the skin feeling not only super smooth, but also really hydrated feeling. My skin feels so silky and looks soft and radiant. I cannot say enough about how awesome this product is. Love it.
