

Introducing Oh!

The Oh! family of products goes far beyond the typical 'black rectangular box' of most speakers in favor of our unique cylindrical design, with alternating layers of ultra-premium materials that you can customize to your heart's delight.

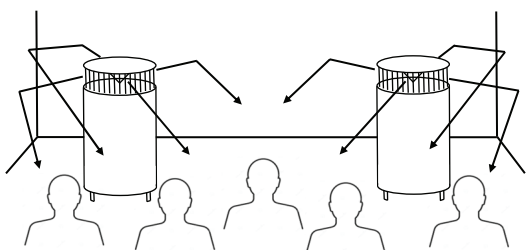

Our Oh! products employ a point-source co-axial driver firing up into a conic reflector, distributing sound in an omnidirectional 360-degree soundfield from each speaker. All the emotion and detail in your music is revealed with spectacular midrange clarity.

Design

Oh!'s unique cylindrical design showcases high-quality slabs of solid-surface, stunning natural wood slats and legs, machined billet aluminum parts, and a curated selection of the world's finest commercial upholsteries. All of these ultra-premium materials are available in multiple finishes that allow an unprecedented level of customization.

Most speakers deliver their best sound only 'on-axis', to a single listening position.

Phillips Design speakers emit on-axis in every direction, so everybody gets to enjoy the same great sound.

Technology

Our unique, highly-polished metal cone reflects sound outward in all directions in the horizontal plane. Some sound comes straight to the listener's ears off the front of the cone, while the rest follows milliseconds later as reflections off the back and side walls of the listening room - just like natural instruments in a concert hall. Your music comes alive in a broad, detailed soundstage, with a uniquely rich timbre and realism.

Powerful carbon fiber woofers in the sealed (acoustic suspension) enclosures below ensure ultra-precise low frequency reproduction. It all creates an immersive sonic experience that will take your breath away.

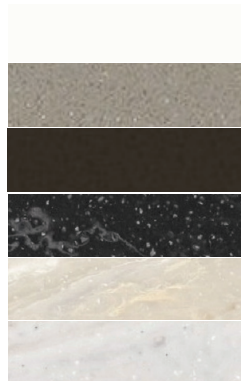

OH-16 Specifications

- Frequency Response: 30 - 20,000 Hz
- Nominal Impedance: 8 Ohms
- Sensitivity: 88 dB (2.83v input @ 1m)
- Power Handling: 200w RMS continuous, 350w peak (we recommended 50-200 watts/channel)
- Dimensions:
 - ◆ Height: 38-3/16" (970 mm)
 - ◆ Diameter: 16-5/8" (422 mm)
 - ◆ Weight: 78 lb (35.5 kg) each
- Enclosure Design: Acoustic Suspension (sealed)
- Crossover: 3-way 12 dB/oct, computer optimized
- Woofer: 12" carbon fiber composite cone, cast aluminum frame, 3" flat-wire voice coil, massive magnet assembly, high-excursion rubber surround, and extensive thermal management
- Midrange: 6" PP/TPX polymer cone, cast aluminum frame, massive magnet, rubber surround
- Tweeter: 1" pre-coated fabric dome, rare-earth magnet, point-source integration with midrange
- Sold in stereo pairs, starting at \$8,800/pair.

Material Options

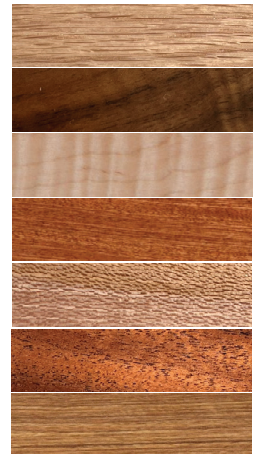

- Choice of 6 colors of DuPont Corian solid surface:

- Glacier White (+\$0)
- Concrete (+\$500)
- Deep Espresso (+\$500)
- Cosmos Prima (+\$725)
- Dune Prima (+\$725)
- Limestone Prima (+\$725)

- Choice of 7 wood species:

- White Oak (+\$0)
- Walnut (+\$125)
- Curly Maple (+\$500)
- Sapele (+\$500)
- Sycamore (+\$650)
- Mahogany (+\$650)
- Teak (+\$850)

- Choice of 9 upholsteries, each in multiple colors:

- Commercial-grade fabrics from Designtex, Gabriel, Kvadrat, and Maharam (from +\$0 to \$1,750 per pair)
- Premium leather with French seams and contrasting stitching (+\$1,750)
