

Radio Copy

SUBJECT: Summerfill
LENGTH: :30 Seconds
MUSIC BED: *Optional*

ANNOUNCER:

If you use propane to heat your home, now is the best time to see your local Cenex Propane Partner about ordering clean, reliable propane. Like other commodities, propane often follows seasonal pricing patterns – rising in the winter when demand is up – and tapering off in spring and summer when demand is down. So, fill your tank now before the snow flies and take advantage of pre-season propane prices. Stop by or call today.
