

SCHUMACHER

FOLLY COVE

A dive into our archive led to the rediscovery of the **Folly Cove Designers**, a guild of women artisans who worked in Cape Ann, Massachusetts, and designed for Schumacher during the 1940s and '50s. Mostly self-taught, the Folly Cove Designers produced charming, unpretentious designs that were first sketched and carved into linoleum blocks, then hand-printed onto textiles and other materials. Largely inspired by their New England surroundings, the group was known for cheerful, picturesque scenes from country life and a flat, folksy aesthetic.

We are thrilled to revive some of their wonderful patterns in **Folly Cove**, a collection of printed textiles and wallcoverings that are as appealing today as they were when Schumacher introduced them more than half a century ago.
