HADIYA WILLIAMS

Schumacher is thrilled to add designer/artist **Hadiya Williams** to our roster of creative collaborators. Based in Washington, D.C., Williams is the founder of **Black Pepper Paperie Co.**, a mixed-media art and design studio that produces globally inspired surface patterns and unique handcrafted pieces, including ceramics, home decor, paper goods and apparel. Applying her talent to many areas of design, Williams finds inspiration in Black culture and history, especially as they relate to collective memory, ritual and migration.

Derived from original drawings, paintings and paper cutouts, Hadiya Williams' fabrics and wallpapers are notable for their rhythmic patterns and restrained palettes. But there is so much more than meets the eye in these modern graphic motifs. Here, style meets substance, with each design's name evoking the creator's cerebral approach and deep-seated interest in storytelling. Imaginative and dynamic, these fabrics and wallpapers breathe life and meaning into a room.
