## Marian McEvoy

Inspired by everything from the exuberant colors of Yves Saint Laurent's famous Jardin Majorelle in Marrakech to the woodland backdrop of her colonial-era home in the Hudson Valley, design icon Marian McEvoy has joined forces with Schumacher to launch a fabulous new collection of fabrics and wallcoverings that are loaded with personality, whimsy, and a reverence for the natural world. "Decorating and gardening are joyful processes," the style maven says, "and these botanical patterns are the result. Cheery, pretty, a little kinetic, and unabashedly naïve, they can lift the spirits in any room!"
