

Patterned Sheers & Casements

SCHUMACHER

Patterned Sheers & Casements

From exuberant prints to woven geometrics and embroidered designs, this Patterned Sheers and Casements collection offers something special for every aesthetic. Some of these designs are adapted from ever-popular Schumacher patterns, while others are wonderful, original motifs that boast a useful range of styles and colors. This generation of casements and sheers is anything but ordinary!

Why you'll love this collection:

Pretty meets practical. These fabrics filter sunlight, provide privacy and bring an extra element of pattern, color and texture to windows. Even better, most of these designs are double-width, so they can be used in great swathes with minimal sewing and fewer visible seams.

Soft and stylish. Used alone or layered with other fabrics, these sheers and casements are easy, casual and perfect when a plain solid just won't do.

Natural Beauty. Unlike the filmy synthetics of the past, our sheers and casements derive their beautiful hand and breezy, translucent quality from natural fibers. In some cases, we've added a touch of poly to prevent stretching in warm, humid climates.
