SCHUMACHER

Ready to Ship Rugs

We're thrilled to introduce our fabulous collection of readymade rugs inspired by some of our most beloved Schumacher designs. From chic animal motifs to smart geometrics to casual boho designs, there is something stylish for every room in the house, from high-traffic entryways to elegant living rooms. Prepare to be floored!

To produce this special assortment, we worked with female artisans through Women's Weavers, a program designed to give women in rural India training and opportunities to create an independent income for their families by learning the art of weaving. Schumacher is also proud to have our SA8000 Accreditation which requires that manufacturers meet standards far beyond acceptable compliance regarding the rights of workers. Audits conducted for this accreditation occur bi-annually and have zero tolerance for criteria like child labor, forced labor, discrimination, and unhealthy or unsafe working environments or wages.

Women Weavers Program

Women Weavers is a program that provides training and opportunities for women in India.

It empowers women in rural developing communities to earn an independent income, and in turn, it offers safety, mobility, and the chance for generational financial security.
