# UNCOMMON THREADS

**Uncommon Threads** is the culmination of years of research into—and a deep fascination with—true masterpieces of tapestries, hand-woven rugs and vintage textiles. Poring through examples from across the globe (Sweden, South America, Egypt and beyond), our design studio charted a new territory of hand-dyed yarns, complex warp setups and unique variations of weights, color and texture to create this extra-special collection. From Verdure Tapestry, a lush hand-drawn foliage design inspired by an exquisite antique French screen, to Tiny Things, a sweet, charming embroidery imagined by our very own CEO and completely hand-drawn in our studio, this unparalleled collection is our love letter to handcraft.
