INTRODUCTION

Oriental designs have a charming and unique soul that warms every place and fills it with luxury and elegance. It is the style that most people look for to add to their places, and here shines the name of Tarrab. Our success story has made us a prominent name in the field of furnishing, providing custom-made FF&E and OS&E items for the top hotels in the Middle East. We passionately bring together the aesthetics of eastern history and contemporary designs, adding a cozy and innovative touch to your project.

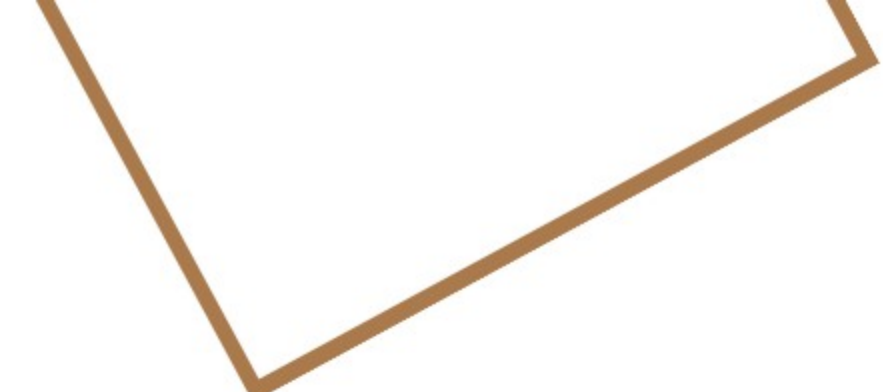

Our Heritage

With a heart full of determination and love for genuine beauty, Mr Hussein Tarrab's journey started with a trade business in Syria, followed by a distinctive move to the UAE in 1997. There, he established his Tarrab Trading Co. supplying oriental decorative lightings, furniture, and accessories. His third participation in Dubai Shopping Festival as a small shop marked a real turn for Tarrab's journey as the idea of working as a hotel supplier was born. Traveling wide and far, he brought the finest materials to be crafted by the most skillful hands.

About two years later, Tarrab's first project, the Mirage Hotel's elegant interior design, came to life. In 2017, that unique project set in the desert, Bab AL Shams Desert Resort and Spa, was a real distinction in Tarrab's history, expanding his business to become famous in UAE and worldwide. Since then, he has never stopped writing his success stories of reviving the traditional oriental furniture designs, providing for luxurious hotels, villas, and mosques. Only at Tarrab, you always find charming contemporary art pieces covered with legacy
