

Product Name:

GREENFORCE LAWN WEEDKILLER

Contents:

Contains Mecoprop-P and Dicamba as the potassium salts in a soluble concentrate.

Use:

For use only as a horticultural systemic and selective herbicide for the control of certain broad-leaved weeds in lawns. For maximum effect spray when the weeds have adequate leaf area to absorb the chemical. Following spraying, leave the sprayed area uncut for as long as practicable, to allow the chemical sufficient action to be carried from the leaf and throughout the plant to the roots.

General Description:

Greenforce Lawn Weedkiller is designed to control all major lawn weeds including clover. Use Hytol Lawn Weedkiller on lawns which are actively growing from Spring to late Autumn.

Rates of Application:

Use a clean knapsack or watering can fitted with a fine rose. Cover vegetation without run-off. Apply Greenforce Lawn Weed-killer at the rate 25ml per 25m² in 2½ - 5 litres of water.

Measure cap supplied

Product Code	Pack Size	Number per Outer	Area covered	Bar Code
P2241	500ml	12	500m ²	5390182022415
P2242	1L	12	1000m ²	5390182022422
