

HAPPYBOND

Products for dogs

designed by a bio scientist & dog-lover

Tony hated to walk, so Anja got him a skateboard and he loved it. He wasn't the most skilled skateboarder at first, but he rode everyday and became quite good.

Until one day, Anja noticed Tony was having shoulder pain and crying at night.

She diagnosed it to be joint pain and created a collagen-building formula, from her tissue bioengineering research, that worked for her horses to help their arthritis. After she put it in Tony's food, she noticed a day by day improvement.

**One week later he
was skating again...
and that made them
both happy again.**

OUR MISSION IS TO...

Fuel the vitality

*of the **HAPPYBOND** moments & experiences*

Bring lifelong happiness

to caring dog people all over the world

Extend the HealthSpan

*of pets & strengthen the **HAPPYBOND***

Proven Results

Science Backed

Our founder, Anja, is a biotech scientist specializing in cartilage tissue engineering.

What does that mean you say? Basically, she's incredibly smart and, lucky for us, a super dog lover. She used her research in cartilage rebuilding to create our patented and unique collagen+ formula that helps rebuild your dog's collagen and prolong their youth and agility.

All our **HAPPYBOND** products are innovated by Anja and dog experts, offering proven results for happy dogs around the world.

HealthSpan Knowledge

At HAPPYBOND
we believe in
“Whole Health”.

Just like people, our pups need a healthy mind, nutritious food, and play to stay happy and healthy.

MIND

BODY

PLAY

Pure Ingredients fueled by science

From the beginning, we insist on 360° transparency into the quality of source ingredients, processing & packaging.

- 100% Natural ingredients
- 100% Balanced supply with all vital substances
- 100% Transparency with pure, unadulterated raw materials in 100% food quality
