

Liv Liberg, britt (sleeping beauty) #2, 2021

Liv Liberg

Liv Liberg (1992, NL) is an Amsterdam-based photographer. Her affinity with photography started at the age of 10 when she began to photograph her friends and her younger sister, Britt. Liberg was directing a game in which she and her models played with fashion and dressing up. This child's play grew into a passion that evolved over the next 15 years. The photos of her sister became an archive, capturing a girl becoming a young woman, developing an awareness of herself and the world around her. Over these years, Liberg directed her sisters in various settings, often wearing their mother's clothes. This archive now becomes Liberg's first photo book titled "Sister Sister," published by Art Paper Editions. Her book is a coming-of-age biography of sisters, with one sister being behind the camera and the other in front. Liberg graduated from the Royal Academy of Art in The Hague in 2017.
