REMOVE ODORS - KILL GERMS - CLEAN THE AIR

The 365nm to 385nm UVA Rays emitted from Titan's TiO² Photocatalytic Lamps pass through a Permanent Anatase TiO² Coated Super Reactor Screen which is designed to hold the maximum amount of Highly Reactive Nano Sized Anatase Titanium Dioxide, and as a result, electron hole pairs are formed that react with H²O and O² in the air and produce Free Electrons, Hydroxyl Radicals & Ionized Hydro-Peroxide that when dispersed by the fan will decompose organic and inorganic gases and air pollutants into carbon dioxide and water.

**THE LARGEST ADVANTAGE TO THE TITAN AIR PURIFICATION & DEODORIZATION SYSTEM IS THAT IT
PRODUCES NO OZONE AND IS 100% SAFE TO RUN IN INHABITED AREAS.**

The market for the Titan is unlimited. Fire and Flood Damage Restoration, Doctor's Waiting Areas, Nursing Homes, Day Care Centers, Restaurants, Night Clubs, Beauty Parlors, Etc... Etc... can all benefit from the odor and germ destroying properties of Titan's TiO² Photocatalytic process which will clean the air, remove odors and eliminate poisonous gases and organic pollutants.

Another advantage of the Titan TiO² Photocatalytic Lamp is that it is self-cleaning and will perform at its optimum for a period of up to 8000 hours.

Titan Hydroxyl Maximizer Mini Evaporative Humidification System

for

Titan 1000 Hydroxyl / Ionized Hydro-Peroxide Generator

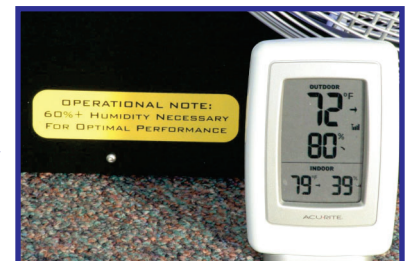

Feed Your Titan Hydroxyl Generator H₂O and It Will Work 2 to 3 Times Faster

True hydroxyl generators utilize water vapor in the atmosphere to create hydroxyl radicals. The Titan 1000 technology works by creating a reaction between UVA, TiO₂ and H₂O to break apart the water molecule (H₂O) and create a single hydrogen atom (H) a hydroxyl radical (OH) and Ionized Hydro- Peroxide (H₂O²). This hydroxyl radical and Hydro-Peroxide will disperse into the air and deodorize, oxidize and deactivate airborne microbials while remaining 100% safe for use in occupied areas. A high level of humidity allows for increased Hydroxyl and Hydro-Peroxide production and in turn makes the Titan 4000 perform more efficiently saving you time and money on the job.

The Titan Hydroxyl Maximizer uses evaporative technology to produce a very fine cold water vapor. The Maximizer is placed right behind a Titan Hydroxyl Generator and will increase the direct intake of humidity which increases the hydroxyl and Hydro-Peroxide production. The Maximizer will make your Titan 1000 perform as if it is on steroids.

Do not worry about raising the humidity on your job. A very interesting discovery was found during testing of the Titan Hydroxyl Maximizer. The Titan 1000 will use the extra humidity from the Maximizer and does not raise the relative humidity in the room. Once the humidity is processed by the machine it is no longer a water molecule and instead it is a OH & H₂O². When the intake humidity was measured and compared to the humidity in the exhaust, there was a 50% drop in the humidity level.

The Titan Hydroxyl Maximizer will hold enough water to run for 4 to 5 days.
