
Valmier Collection

Georges Valmier

Valmier collection, inspired by the artworks of the french artist, costume designer and musician, Georges Valmier, pays tribute to the artist's use of bold colours and harmonising odd shapes. Valmier's work encompassed cubist and abstraction movements and this collection tries to exemplify the artist's belief that colour is the key element to creative expression. Vibrant colours and inventive shapes, combined with artisanal craftsmanship are the highlights of Valmier collection.
