

## SIZE CHART

This size chart is based specifically on Totectors boots to ensure you get the correct size when ordering from us online. The sizing takes into account approximately 10 mm of space between the end of your longest toe and the front edge of the shoes.

### HOW TO USE:

1. To find the correct size for you, print these pages setting the printer to ACTUAL SIZE.
2. To check if the scale is correct, place your bank card within the rectangular space below.
3. At the bottom right corner of this page, fold along the dotted line and place this chart flat on the floor with the heel aligned with a wall.
4. Place your heel on the base as indicated. Ensure your heel is against the wall with the foot flat.
5. Take the measurement of your longest toe, if your toe falls between numbers, choose the closest size available, depending on desired fit.

Place your bank card here

Size: 85.60 by 53.98 mm
