# ABOUT Us!

**Bajaj** industries was found in Sialkot (province of Punjab), Pakistan on 1937 by “Sh. Abdul Razzaq” (Late). At that time **Bajaj** became one of the first companies to produce Aluminum house hold utensils in Pakistan.

Non-compromised quality and elegant designs have not only made our products dominant in the local market but also highly popular across the world, which created a need for another production unit that was setup at WAZIRABAD in 1970 found by “Sh. Tariq Razzaq”. Which continued to fill the gap in the markets and provided the best ever quality cookware to the world.

**Bajaj** launched its brand name **CHEF** in 1996. From the day onwards all the products are being marketed under the brand **CHEF**, we have vast range in cookware products e.g. (Pressure Cooker, Pots, Pans, Nonstick Cookware, Catering Pots, Commercial Cookware and many more). **CHEF** has established network in Pakistan and also distributing its products to Europe, North America, South America, Middle East, West Africa & South Africa.

**CHEF** products are reliable to use as we carry national and international certifications for safety and Quality control procedures. We carry **CE (European Conformity)**, **I.S.O. 9001:2000** and **PSQCA (Pakistan Standards & Quality Control Authority)**. We have 500 professional employees working day and night under these practices and procedures.

**CHEF** produce utensils for domestic use, Hotels (Restaurant), Army, Hospitals & Chain Stores. We have the ability to produce private label merchandise and packing, which have been successful in international market. We also produce exclusive products as per our customer required designs and specifications (we make all the dies on our expenses) conditional.

**CHEF** policy is to provide its customers best services and lucrative quality at very competitive prices. That’s the reason our business is growing up year by year. We only believe in long term business relationships.
