Install Battery LED System

Provided Materials:

1.) 17" Magnetic Pigtail
2.) ILW QU-BLED Light System
3.) Magnetic Charging Adapter

Tools Required:

- Phillipshead Screwdriver
- Box cutter

Using a sharp blade, cut pigtail lip off of topper. Always cut away from your body to avoid injury.

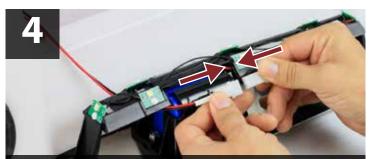

Feed magnetic pigtail into hole and use hand to secure into place. This may require a bit of force.

Screw new light system to the topper shell.

Remove screws from bottom of sign and remove the old lighting system.

Plug in new pigtail into new light system. Discard old light system.

Charge your topper using the Magnetic Charger that was included.
