

Replacing Your Magnet Cover

Provided Materials:

- Rubber Magnet Cover
- Rubber Grommet

Please note that our magnet covers now come with an included rubber grommet. These rubber pieces tend to wear out over time and should be replaced every couple of years to prevent scratches on your vehicle.

1

Remove the old magnet cover and grommet. Push the new rubber grommet onto the magnet screw.

2

Insert the magnet with screw and grommet into the new magnet cover.

3

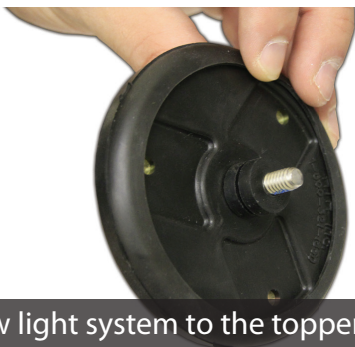

Stretch the cover over the bottom of the magnet. This may require a bit of force.

4

Be sure all edges of the magnet cover are wrapped over the edges of the magnet.

5

Screw new light system to the topper shell.

6

Replacement complete, please clean top of vehicle of debris and continue use of topper.
