## 6 WAYS KIDS CAN CONSERVE WATER

1

Turn off the tap when brushing your teeth!

2

Have a shower instead of a bath!

3

Use a watering can instead of a hose to water your flowers.

4

Drink tap water instead of bottled water.

5

Don't flush the toilet so much.

"If it's yellow, let it mellow.  
If it's brown, flush it down"

6

Collect rain water and use it for water play!
