Solid Brass Fittings & Rods

Our brass fittings is made from solid brass only. We do not use plated or painted metal/iron in our products.

6 fittings will help you to do your own design. If you want, custom fittings can be produced special for you.

Which material do you want to use as shelf on your brass unit? Glass or oak will be good choice.

Just Dream It!

Mavi Manufacturing, specializes in the design and fabrication of brass custom shelving systems and fabricates to any size and configuration.

Your brass projects can be mounted to ceiling, wall, countertop and floor.

Mavi Manufacturing also invites architects, designers, builders, and developers to contact Sparkle personally to review your specific needs. We are an extremely hands-on, well-trained, and technical group who very much enjoy corresponding directly with the trade on interesting new projects.

Provide us with your concept, and we will propose a solution to accommodate your design intent.
