

Rt Hon Lord David Frost
Minister of State for the Cabinet Office
70 Whitehall
London
SW1A 2AS

cc: Rt Hon Oliver Dowden MP
Secretary of State for Digital, Culture, Media and Sport

26th May 2021

Dear Lord Frost

Securing a Europe-wide visa waiver and cultural passport agreement for UK Touring Professionals and Artists

Last week, [we gathered in support of the Carry on Touring Campaign's](#) UK-EU Summit to call on the UK Government to act.

As you know, the failure to secure an exemption in the EU-UK Trade and Cooperation Agreement (TCA) to allow EU-wide cultural work permit and visa free travel for those on tour will have a catastrophic impact on both the UK's and EU's cultural economies. All touring art forms will be affected and in particular young and emerging artists. Without a return to the negotiating table many jobs and livelihoods will be lost; as well as income for crew, haulage and production, at a time when the sector desperately needs a lifeline.

[Carry on Touring](#) is the UK's umbrella campaign which all those who work in the creative sector, and rely on touring for their income, can support and sit under. It brings together voices from across the touring, cultural and creative industries to secure political and public support for [Tim Brennan's petition, which has almost 300,000 signatures to date](#).

It is, of course, an unfortunate and unintended consequence of the Brexit negotiations that such an important export and part of the UK economy has been compromised. Touring artists and professionals now face unnecessary barriers which will mean that, for many, going on tour in Europe will no longer be viable. Having to navigate the differing requirements of 27 Sovereign EU states means getting work permits for crews (including dancers and performers, techs, video, sound and lighting crew, the riggers, special effects, set carpenters, automation,

wardrobe, make-up and hair, the production team, catering, drivers, and anyone else working behind the scenes) for the various countries they visit and will have a huge impact and cost.

The current impasse needs to be unlocked. We believe that the Government must work flat out to find a workable solution. We are calling for a bespoke visa waiver agreement with the EU for the creative industry as well as bilateral deals on work permits with key EU Member States to exempt touring performers, creative teams and crews.

Please can we have your personal assurances that you will move forward quickly to resolution and secure a lifeline for this vital UK industry which gives so much to the economy and the public's wellbeing. We would also welcome details of the discussions you have had to date and a report on the progress the UK Government is making to secure an urgent resolution.

In view of the huge support received at the Carry on Touring Campaign's UK-EU Summit and Tim's Petition and the Carry on Touring campaign from Parliamentarians from all political parties, celebrities, artists, trade bodies across the UK and the EU and the public, we hope you will agree that it is time for the Government to do everything it can to unlock the impasse and support the future of the touring economy.

We would welcome the opportunity to discuss what will help us get back to work and carry on touring. We look forward to receiving your immediate response.

Yours sincerely

1135 supporters of the Carry on Touring Campaign
