

Open Letter to Oliver Dowden MP, Secretary of State for Digital, Culture, Media & Sport

DATE:TBI

Dear Secretary of State

We need a workable solution for the UK to get us back on tour

The latest announcement from your department claims performers and their support crews can tour freely in 19 EU countries. This is not a solution for UK touring professionals, creatives and artists. Rather it is a devastating blow to an already hard-hit sector which makes a huge and vital contribution to the UK economy.

Real jobs and real lives are at stake and we believe your announcement will do absolutely nothing to help us get back on tour. We rely on touring to make a living and we are desperate to get back to work. We asked you for clarity not more chaos and confusion. You know that we will still have to climb a mountain of bureaucracy and additional cost in each EU country we visit on tour. The fact remains that our ability to work has been severely limited by the UK Government's lack of an agreement with the EU that's fit for purpose.

As you must know, all these countries have different requirements and work permit free periods vary from Zero to 7 in any one year to 90 days in 180. This implies that in some of these countries there is no work permit exemption. Hungary for example, where you need to apply for a residency permit to be able to work as a freelancer.

It is clear that many of these agreements are standard for third country nationals and are not in fact a new allowance at all. Rather than provide a solution to the EU touring impasse, your announcement will, in our view, simply add to the confusion.

Despite the Government's best efforts this is not the solution we asked for. We will continue to fight for a [pan European EU visa and work permit waiver](#) to be negotiated because that is the only way to get tours back on the road and real people like us back into our jobs without the hinderance of time limitations, red tape and financial loss.

This affects all creative professionals, including but not limited to, Artists, Musicians, Actors, Fashion, Photographers, Support Crews, Orchestras, Dancers, Theatre, Outdoor performers, Touring Truck and Bus drivers, Journalists, Authors, Painters, Sculptors and more.

Right now, tours are still stuck on British soil, leaving countless careers on hold. We want you to work with us to find a workable solution that will truly get this world-leading industry back to what it does best.

Your Government must now take urgent action to resolve the problem created by the TCA and engage with your counterparts across Europe to reach a resolution which works. We hope you will now fully commit to getting UK tours back on the road and us back to work.

We look forward to your reply and having the opportunity to meet with you at your earliest convenience.

Yours sincerely,

Tim Brennan

Founder and Petition Creator
