Surface treatment	Galvanized
Optimal packaging	10 per box
Product dimensions	520 x 200 x 110 mm

GTIN 8718026805074

Einstein: This clamp is extremely suitable for mechanical paving. Sometimes stones have to be laid again. This is not necessary more on your knees or with your back bent. Easy Lifter: The best way to move large tiles in a health-friendly way. Never bend over again thanks to the extra long arm. Thanks to the adjustable jaw width of 62 cm, you can easily pick up the largest tiles.
