

## Two wire Inline DO Transmitter DO 3910

### Features

- Clear LCD displays pH.
- Isolated 4-20 mA current output for dissolved oxygen
- Wide range power supply, 11 to 50V DC.
- Easy to install for wall setting.
- IP65 watertight case..

### Specifications

Range	Dissolved oxygen (%)	0.0~199.9%
Resolution	Dissolved oxygen (%)	0.1%
Accuracy	Dissolved oxygen (%)	±0.2%FS
DO calibration		2 point calibration, manual
Current output		One 4 ~20mA (isolated)
Load		550Ω
Power		11~50VDC

### Accessories

DO electrodes	OXYSENS 120	For wastewater (stainless steel housing, PG13.5 thread, 5 m cable, with temperature thermistor).
	OXYFERM FDA 120	For fermentation (stainless steel housing, T82/D4 thread, with temperature thermistor)
009		Protective submersion housing.
