General description

The 2 Channel frequency transducer FMP 1836 displays all measurands which can be converted to the equivalent parameter frequency by applicable transmitters.

The FMP 1836 is designed for recognition of rotation direction as well as limit value monitoring and standstill monitoring. The ECT - Esters Configuration Tool running on Microsoft Windows provides all functions to program the required features for its application.

Detection of the rotation direction (4-quadrant operation)

The FMP 1836 is designed for the recognition of rotation direction of two signals, out of phase 90° (4-quadrant operation). The directions of CLOCKWISE and COUNTERCLOCKWISE are connected to the frequency input. The mA output can be used for the actual speed of the frequencies. The integrated relays show the status of the direction. Additionally one relay can be programmed for limit value monitoring.

Monitoring of limit values and standstill

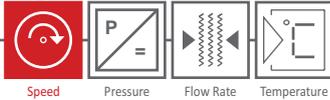

The FMP 1836 with its 2 frequency inputs and 4 freely programmable relay output can be used for limit value and standstill monitoring. Each relay can be programmed with a limiter which provides 5 operation modes:

- lower limit value („underrange“)
- upper limit value („overrange“)
- band limit value („band“)
- notch limit value („notch“)

Each limiter can be programmed with a trigger delay. For the lower and upper limit a hysteresis band can be defined.

Fields of Application

- | | | |
|---|--|--------------------|
| ■ Actual value for analog speed control | ■ Paper, fibre, film, steel and crane industry | ■ Centrifuges |
| ■ Test stands | ■ Textile machines | ■ Emergency diesel |
| ■ Turbines | ■ Generators | ■ Agitators |

Technical details

The devices of the series FMP 1836 are available as 2 channel devices.

MEASUREMENTS

- absolute value: channel A and channel B (frequency and rotational speed)
- absolute difference: A-B (frequency and rotational speed)
- percental difference: $(A-B)/B*100$, $(A-B)/A*100$ and $(A-B)/(A+B)*100$ (frequency)
- ratio: (A/B) and (B/A) (frequency)
- incremental signal evaluation (4-quadrant operation, recognition of direction of speed)

MEASURING INPUT

		WITH SC 500
INPUT 1 (CHANNEL „A“)	frequency „A“ 1 Hz - 60 kHz NPN	frequency „A“ 1 Hz - 60 kHz HTL-TTL 1 Hz - 60 kHz PNP 1 Hz - 60 kHz Namur
INPUT 2 (CHANNEL „B“)	frequency „B“: 1 Hz - 60 kHz NPN	frequency „B“: 1 Hz - 60 kHz HTL-TTL 1 Hz - 60 kHz PNP 1 Hz - 60 kHz Namur

OUTPUT

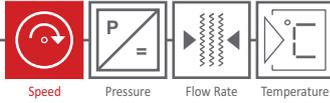

OUTPUT 1 (CHANNEL „A“)	0(4) - 20 mA, freely programmable (e.g. speed „A“)
OUTPUT 2 (CHANNEL „B“)	0(4) - 20 mA, freely programmable (e.g. speed „B“)

RELAY

K1 AND K2:	changer, 30 V, AC, 1A inductive direction of rotation „A“ and „B“ or customer-specific parameterisation using ECT - Esters Configuration Tool (e.g. direction of speed „A“, „B“, limit value or failure)
K3 AND K4:	NO switch, 30 V, AC, 1A inductive limit value or customer-specific parameterisation using ECT - Esters Configuration Tool (direction of rotation „A“, „B“, limit value or failure)

FILTER FOR LIMIT VALUES

- lower limit value - underrange
- upper limit value - overrange
- band limit value - band
- notch limit value - notch
- hysteresis

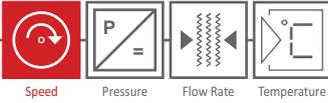

ELECTRICAL VALUES	
ACCURACY	$\pm 0,05 \% \text{ EW} \pm 1 \text{ digit at } 23 \text{ }^\circ\text{C}$
POWER SUPPLY	24 V, DC $\pm 3 \text{ V}$
CURRENT CONSUMPTION	max. 1,25 A, protection by 3 A fuse or intrinsically safe power supply
POWER CONSUMPTION	max. 30 VA

ENVIRONMENTAL INFLUENCES	
AMBIENT TEMPERATURE	-10 to +55°C
STORAGE TEMPERATURE	-20 to +85°C
TEST VOLTAGE	3 kV
HUMIDITY CLASS	E-DIN 40040
ELECTROMAGNETIC COMPATIBILITY	acc. to EN 61000

INTERFACES	
USB	Mini-USB connection (5-pin, USB 2.0) for configuration with ECT - Esters Configuration Tool

DISPLAY, HOUSING, WEIGHT	
DISPLAY	LCD-display display height: 8 mm
STANDARD HOUSING FOR RAIL MOUNTING	dimensions: 100 mm (B) x 100 mm (H) x 107 mm (T) material ABS UL 94 V0 protection class: IP 20 net weight: approx. 480 g
PROTECTIVE HOUSING FOR WALL MOUNTING (OPTION M104)	dimensions: 343 mm (B) x 330 mm (H) x 210 mm (T) with tab and high-strength cable gland protection class: IP 65

Rev.-Nr.: FMP 1836-DS 109 E-V1.3 2018-11-14
