

Studio Monitor Stands (Pair)

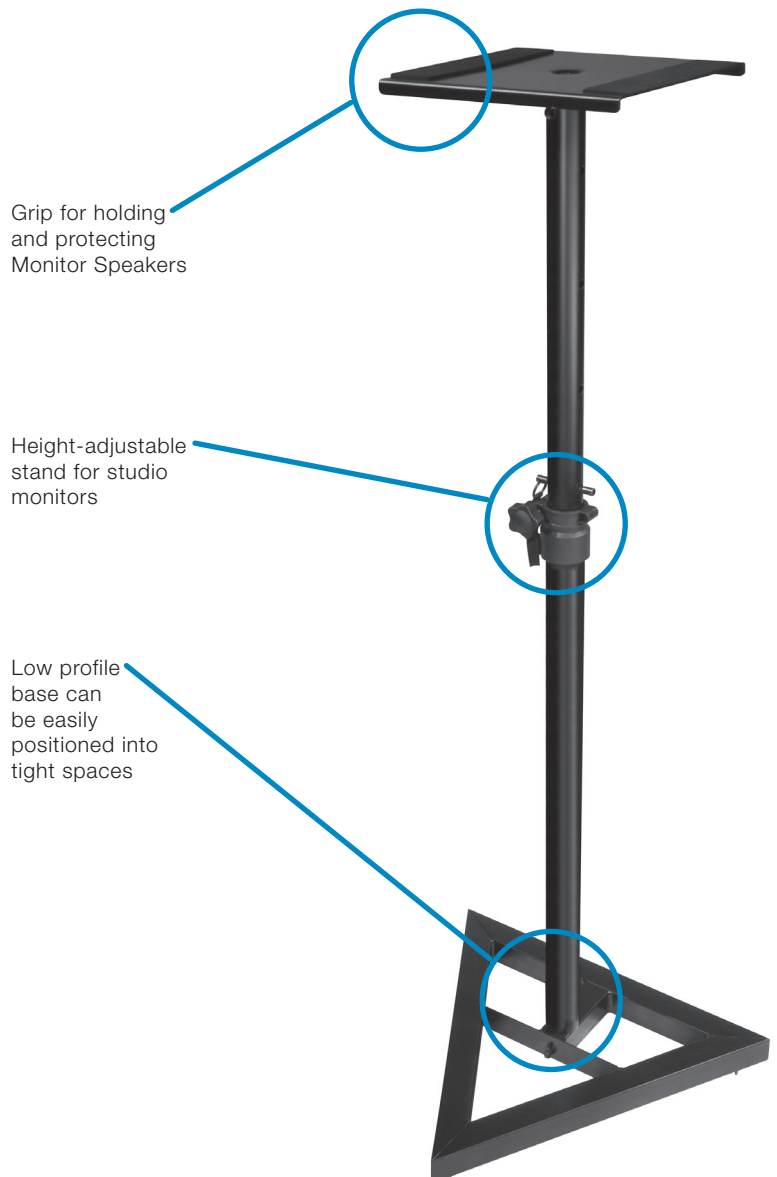

JS-MS70 item# 17441

If you're just starting out and have smaller studio monitors that you'd like to set on stands, the JS-MS70 is the perfect solution for you! The stable low-profile base can easily be positioned into tight spaces. We've included both leveling floor spikes for carpeted areas, and rubber feet for hard wood and tile surfaces. The JS-MS70 has four heights from 32.5" to 44.25" and can be securely locked into place with the included locking pin.
