

Studio Series Professional Microphone MC-125 Boom Stand

The MC-125 professional studio boom stand's larger-diameter base and locking, rollerblade style wheels provide a low center of gravity and extra stability. Smoothly raise or lower height from 52" to 83" with a reliable clutch. The long boom telescopes from 35" to 61" and features a friction-free clutch arm extension. Also includes a unique, easy-adjust 5.75 lb. counterweight for a stable microphone placement. And the threaded shaft and boom sections provide quick set up and tear down for easy transport and storage. The MC-125 is in a class all its own.

Smooth Moving Base

The MC-125 includes three wheels that glide across the floor for easy positioning.

Quarter Turn Clutch

The clutch is over sized for better grip, it just takes a quarter turn to adjust the height.

Strong Materials

Heavy Duty Base with strong 1" diameter tubing, making its tubing one of the largest in the market.

Adjustable Counter Weight

Includes a unique, easy-adjust 5.75-lb. counter weight for a stable microphone placement.
