

2"x2"x24" ACOUSTIC FOAM EDGING – QTY 24

UA-FE-24_24

Ultimate Acoustics Foam Edging

Ultimate Acoustics' UA-FE-24_24 is the perfect compliment to any acoustic treatment installation. This acoustic foam edging defines clean lines in corners of rooms where walls meet walls and walls meet ceilings, providing an edge for acoustic treatment to be installed next to. They also help control low energy that tends to gather in the very same corners of rooms. UA-FE-24_24 acoustic foam edging is available in 2"x2"x24" sections and ships in packages of four units.
