OPENING AND CLOSING LEGS

Locked Position

Unlocked Position

Locking Knob

Locate the RED or GREY Locking Knob. Turn the Locking Knob $\frac{1}{4}$ turn counterclockwise to the open position shown here.

WARNING!

Always make sure the locking knob is in the unlocked position when opening or closing legs! Locking knob will break if legs are opened or closed in the locked position.

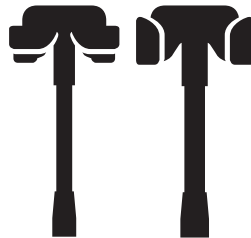

ADJUSTING STAND HEIGHT

This is only for the GS-100, GS-102, GS-1000 Pro & AMP-150

Flip open the RED or GREY telescoping lock lever at the back of the stand. Adjust the height of the stand until your guitar's bottom edge or instrument cable is about two inches from the floor. Flip down the lock lever to secure height.

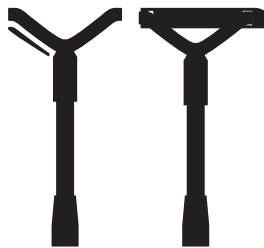

GUITAR STAND FEATURES

Self-closing Yoke

The GS-1000 Pro features a self-closing security gate that closes when you place your guitar on the stand.

Security Strap

The GS-100, GS-102 and GS-200 feature a security strap that holds your guitar in place.

Guitar Pick Holders

The GS-100, GS-102, GS-200 and GS-55 have slots for holding guitar picks

Support Arms

Both the GS-200 and GS-55 have support arms for added support that fit both the Acoustic, Electric and Bass Guitars.
