ASSEMBLING THE MC-125

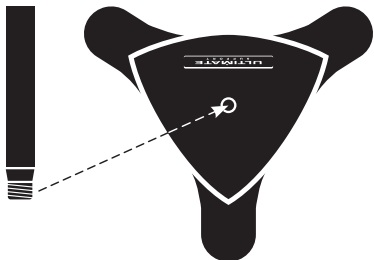

Attaching wheels

First, lock all three wheels. This will allow you to more easily screw wheels into base. Screw all three wheels in place and use the provided wrench to tighten wheels.

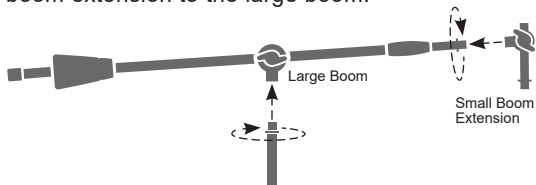

Attaching Shaft

Once you have attached the wheels, screw the shaft into the base.

Attaching Boom

Securely attach the large boom to the shaft. Next, attach the small boom extension to the large boom.

ADJUSTING THE MC-125

The MC-125 is the mic stand of choice for studios and audio professionals all over the world. Relied upon for its secure build and flexibility, the MC-125 offers utility and versatility that have made it a part of countless award winning productions all over the world.
