

Welly Boot Care Guide

Love Your Welly Boots! (and they'll love you back!)

- Rubber is a natural product and can deteriorate in direct sunlight. Please store your welly boots in a dry area away from direct heat and sunlight.
- Welly boots are made to get muddy! If you need to clean then please just wipe with water and a mild detergent if needed.
- Our welly boots have a superior 'rubberised' lining to help keep them waterproof. If you do 'submerge' your boot in that extra deep puddle, then just stuff the boot with newspaper and leave to dry naturally. Do not put on the radiator.
- Have fun! Our welly boots love splashing in puddles as much as your little one does!
