

DISCOVER

What is LuxCraft Poly?

Endless Luxury

Enjoy season after season of comfort and style with LuxCraft quality design and craftsmanship.

Satisfaction

Always Guaranteed

LuxCraft Poly Furniture is low-maintenance and can remain outside all year round. Spend your time enjoying your patio and deck furniture, not repairing or staining it. Give us the chance to serve your decorating needs, and we guarantee you'll be satisfied.

Assurance

You Can Count On Us

LuxCraft furniture comes with a residential lifetime limited warranty or a commercial 5-year limited warranty covering any defective product or part. All you need to do is sit back and relax in your new outdoor oasis.

Quality

Our Number One Goal

What makes LuxCraft endure the seasons? Our craftsmen never cut corners. For example, we reinforce our swings, gliders, and benches with aluminum angle braces. We make our own heavy-duty swivels and assemble all of our products with 316-grade stainless steel hardware. In addition, our porch swings come with a stainless steel chain rated at 800 pounds per side.

LuxCraft Poly is...

Environmentally Friendly

LuxCraft Poly is made of High Density Polyethylene (HDPE), a recyclable plastic derived from post-industrial waste such as milk and detergent bottles. This material is cleaned in a decontamination process to a **purity level of over 99% HDPE**, then compounded into solid board stock material. The resulting product **contains over 90% recycled post-industrial waste** by weight.

Essentially Maintenance-Free

Requires no waterproofing, staining, or other similar recurring maintenance other than an occasional washing with soap and water or our **Poly Furniture Cleaning Kit**.

Assembled with Stainless Steel Fasteners

All LuxCraft products are assembled with **316-grade stainless steel hardware** for optimum durability. Stainless steel is corrosion and stain resistant, which ensures its brilliant shine will last for years to come with very little maintenance.

Exceptionally Fade-Resistant

We use **only high color stability UV pigment systems**, which minimize material breakdown from prolonged sun and weather exposure.

Durable and Long-Lasting

LuxCraft Poly is exceptionally resistant to **moisture, insects, splintering, warping**, and other hazards of environmental exposure common to wood or wood fiber composite products.
