

GEARED TROLLEYS

The Geared Trolley comes with high quality sealed ball bearings, identification tags and complies to AS 1418.2. The Geared Trolley is hand-operated by pulling the hand-chain, running on the bottom flange of monorail. *Pulling force is measured when the trolley is in full load.

Geared Trolleys are widely used in Factories, Mines, Wharves, Docks, Warehouses and Engineering Workshops for installation of equipment in places where no power supply is available. Supplied with spacers to adjust the trolley to suit the width of UB/UC beam as needed.

- High quality sealed ball bearings
- Identification tag with serial number
- Fitted with anti-drop plates for safety
- Low headroom by design.
- Complies to AS1418.2.
