

Drum bund polyethylene with removable grate – three drum

APPLICATION

Store up to three 205L drums and capture leaks, drips and spills of non-flammable liquids. Prevent spilled liquids from contaminating factory floors, inventory or stormwater drains.

FEATURES

- Manufactured and tested in Australia with a 1100kg UDL.
- Chemical-resistant polyethylene bund and polypropylene grate has been tested to withstand the harsh Australian environment
- Undergone a fully-loaded compression test maintained for 28 days at 40°C
- Load tested by NATA accredited engineers in Victoria, Australia
- Store 20 litre, 60 litre or 205 litre drums directly on the bund
- Internal sump capacity to collect drips, leaks and spills
- Removable poly grated floor to provide easy access to the bund sump for cleaning
- Encapsulated data plates with vital information such as sump capacity, maximum UDL, composition materials and net weight

SPECIFICATIONS

Product name	Drum bund polyethylene with removable grate – three drum
Code	DB3G
Maximum storage capacity	250 litres
Construction material	Polyethylene
UDL	1100 kg
Weight	39 kg

DIMENSIONS (W x D x H)

External dimensions	1820mm x 630mm x 350mm
