

Flammable liquids safety cabinet - 30L storage capacity

APPLICATION

For the safe and secure indoor storage of Class 3 flammable liquids and combustible liquids.

FEATURES

- Double wall construction with 40mm thermal barrier
- Vent ports with integral flash arrestors fitted on each side
- Single self-closing door with stainless steel, three point bullet self-latching system
- Adjustable hydraulic door closure
- Flush mount handle and key lock
- Continuous piano hinge on door delivers smooth closure
- One adjustable shelf plus fixed base shelf
- Internal spill containment bund with suspended perforated floor
- Durable UV stabilised thermosetting polyester powder coat finish
- Grounding connector enables earthing if required
- Adjustable screw-in feet for optional elevation
- Safety and warning signage applied in accordance with Australian Standards.

SPECIFICATIONS	
Product name	Flammable liquids safety cabinet
Code	SCIRF30
Maximum storage capacity	30 litres
Construction material	Steel
External surface finish	UV-stabilised polyester powder
Paint colour	Yellow
Doors	1
Shelves (including base)	2
Shelf positions	3
Shipping weight	55kg

DIMENSIONS (W x D x H)	
External dimensions	600mm x 475mm x 800mm
Internal dimensions	500mm x 375mm x 550mm
Shelf dimensions	998mm x 360mm x 27mm

Class 3: Flammable Liquids

Flammable liquids are liquids, or mixtures of liquids, or liquids containing solids in solution or suspension (for example, paints, varnishes, lacquers, etc., but not including substances otherwise classified on account of their dangerous characteristics) which give off a flammable vapour at temperatures of not more than 60 °C, closed-cup test, or not more than 65.6 °C, open-cup test, normally referred to as the flash point.
