

Technical Data Sheet

COBBLE PREP

Concentrated Efflorescence & Organic Stain Remover

Characteristics & Technical Data

Appearance Amber Liquid

Solubility In Water 100%

WT./Gal 8.5 lbs.

Coverage: 100 to 200 SqFt/Gal Depends On Dilution Ratio

4. Properties & Special Features

- Commercial grade cleaning formulation.
- Safer than typical acids.
- Easy to rinse.
- Eco friendly.
- · Contains no phosphoric or muriatic acid.
- Biodegradable.

1. Manufacturer

SurfaceLogix – a Reliance Supply Company 1880 NW 18th Street Pompano Beach, FL 33069

5. Directions

Preparations: Cobble Prep is a concentrate and may be diluted. Using protective eye and skin wear; mix Cobble Prep in a plastic container. Add Cobble Prep to water (see label for mixing ratios. Always test surfaces first with Cobble Prep in an inconspicuous area for desired results.

Always test your surface for color reaction in an inconspicuous area first. Clean individual stains prior to an entire area efflorescence cleaning only. On a dry surface, apply the diluted Cobble Prep at the lowest point of the area to be cleaned.

Efflorescence Cleaning: Work with sections of 200 to 250 square feet at a time. Apply the cleaner uniformly to all areas with a plastic watering can. For stains and tougher efflorescence a light scrub with a broom may help. Rinse immediately and thoroughly without letting the cleaner dry on the surface. Pressure cleaning to rinse is recommended. Repeat operation only if necessary.

Applications: Apply with plastic watering can or pump sprayer.

2. Product Description

Cobble Prep is a eco-friendly formulation containing no muriatic or phosphoric acid and engineered to clean unsealed paving stones and concrete and prepare surfaces for sealing. This highly concentrated blend will remove efflorescence (white lime residue) and surface stains resulting from fertilizer, vegetation, and mortar. Cobble Prep is economical, easy to rinse, and provides a uniform surface for sealer to be applied.

3. Applications

- Removes effloresence (white lime residue).
- Removes rust, berry and organic stains.
- Recommended for etching concrete.

Cleaners & Chemicals: COBBLE PREP, 151-1g, 151-5g

6. Packaging

| Size | Package | Per Case | Units / Pallet |
|----------|---------|----------|----------------|
| 1 gallon | Bottle | 6 | 144 |
| 5 gallon | Pail | N/A | 36 |

9 pounds per 1 gallon pail, 45 pounds per 5 gallon pail

7. Coverage

1 gallon covers 100 to 500 square depending on dilution. **General Applications:**

- Dilute Cobble Prep concentrate 1 part prep to 3-6 parts water
- Apply to cleaned surface
- Brush Cobble Prep solution into surface
- Remove Cobble Prep solution within 5 minutes of application, by rinsing (and diluting) active ingredients from the surface.

DO NOT apply prep undiluted

DO NOT allow prep to dry on surface

8. Curing Information

Cobble Prep should not be left to dry on the surface. Always rinse thoroughly after use.

9. Storage & Shelf Life

Product must be kept in its original, unopened and tightly sealed container. Store in a dry and well ventilated place with controlled temperature (50°F to 90°F). Keep sheltered from weather and direct sunlight. In proper storage conditions, the product's shelf life is 12 months following production (see date on packaging). Store product in original container and close lid tightly after each use.

10. Maintenance

Cobble Prep is recommended for initial cleaning of driveways, patios, pool decks & walkways made up of brick pavers, natural stone, concrete & our decking materials. Follow Cobble Prep instructions for dilution ratios.

11. Shipping

Land & Sea: Not Regulated

Packing Group: III

Flash Point: Not Applicable

12. Clean Up

Rinse tools and treated areas with water.

13. Health Hazard Information

Eye Contact: Wear eye protection. May irritate eyes. If in eyes, flush with water for at least 15 minutes.

Inhalation: Use a NIOSH approved respirator.

Ingestion: If swallowed, DO NOT induce vomiting. Seek

medical attention.

Skin: Avoid prolonged contact with skin.

Use with adequate ventilation.

Treated surfaces may become slippery.
